8 - 9 April 2025

Darwin, Northern Territory

About Northern Australia Food Futures

Innovative agribusiness in northern Australia: Nurturing natural assets for future growth

The 6th Northern Australia Food Futures Conference is the leading industry event that promotes the development of agriculture, horticulture, forestry and fodder across northern Australia. The Conference includes keynote speeches, workshops, exhibition, networking events and panel discussions on the future of agriculture in the Northern Territory and in the northern regions of Western Australia and Queensland.

The 2025 Conference will take place from 8 - 9 April in Darwin and is presented by the NT Farmers Association in partnership with AgForce, ORDCO and KPCA.

The collaboration between these organisations from across northern Australia unites the industry and our stakeholders, farmers, State and Federal Ministers, government agencies, private sector companies, investors, traditional landowners, environmental experts, and scientists. If you have a vested interest in agricultural development in the north, attending the Northern Australia Food Futures Conference is essential.

Book tickets now and find out more at foodfuturesntfarmers.org.au

Virtual Satchel Insert \$1,000

We are thrilled to introduce the 'Virtual Satchel' for our 2025 Conference! This innovative concept perfectly embodies our theme of embracing technology and sustainability. By adopting this approach, we aim to not only minimise waste and preserve resources but also create a more eco-friendly and cost-effective event. This significant step towards reducing our environmental footprint is essential for upholding the social licence of the Northern Australian Food Futures Conference. We are confident that attendees and sponsors will recognise this forward-thinking initiative and the positive environmental impact it will bring.
