

# Landscape Evaluation and Financial (LEAF) Planning

The LEAF planning process delivers whole of landscape, triple bottom line plans that provide guidance and clarity for land managers to have confidence in the merit of their investments of time and money into their landscape. LEAF plans deliver best practice landscape and business management strategies to the agricultural and pastoral industries. A collaboration between landscape consultants Contour Consulting and agri-business consultants Richard Brake Consulting Pty Ltd, these plans are your one stop shop to ensure that both your landscape and business are performing at their peak.

## Grazing

- ✓ **Stock management**
  - ✓ How many to graze
  - ✓ When to graze
  - ✓ Dry season management plan
  - ✓ Infrastructure development
- ✓ Non-domestic herbivore management plan

## Landscape

- ✓ Erosion management
- ✓ Fire management
- ✓ Weed management
- ✓ **Carbon/Natural Capital project**
  - ✓ Realistic scope, mapped and quantified
  - ✓ Management plan for the project integrated with the grazing business and other enterprises

## Financial

- ✓ Business greenhouse gas profile
- ✓ Enterprise emissions intensity
- ✓ **Financial analysis of the plan**
  - ✓ Annual cashflow
  - ✓ Return on investment
  - ✓ Sensitivity analysis
  - ✓ Stock enterprise analysis
  - ✓ Carbon/Natural Capital project analysis
  - ✓ Steady state stock schedule

*"The planning process allowed us to speak honestly about our grazing and land management, biodiversity protection, pests, rainfall utilisation, property development, forage budgeting and land condition. It allowed us to walk the paddocks, discuss issues around soil health, erosion management and pest control, and come up with a prioritised wish-list of what we would like to see happen here to manage grazing into the next inevitable drought."*
