

A scenic sunset over a body of water, with mountains in the distance and pine branches in the foreground. The sun is low on the horizon, creating a bright glow and a reflection on the water. The sky is a mix of orange and blue.

NSW Rural Generalist Medical Training Program

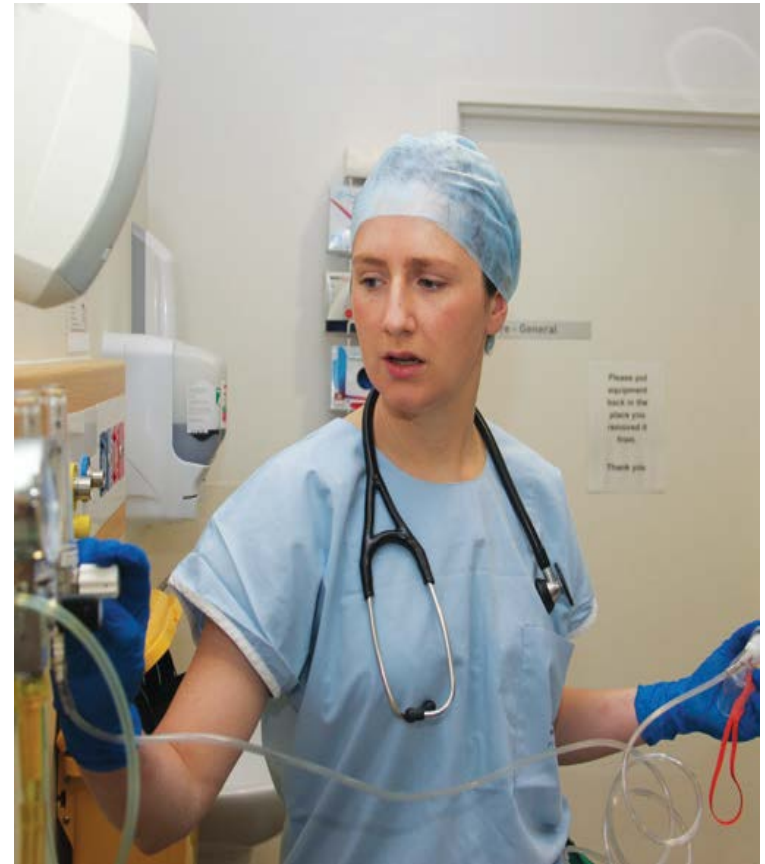

Health Education and Training Institute

HETI.NSW.GOV.AU

NSW Rural Generalist Medical Training Program

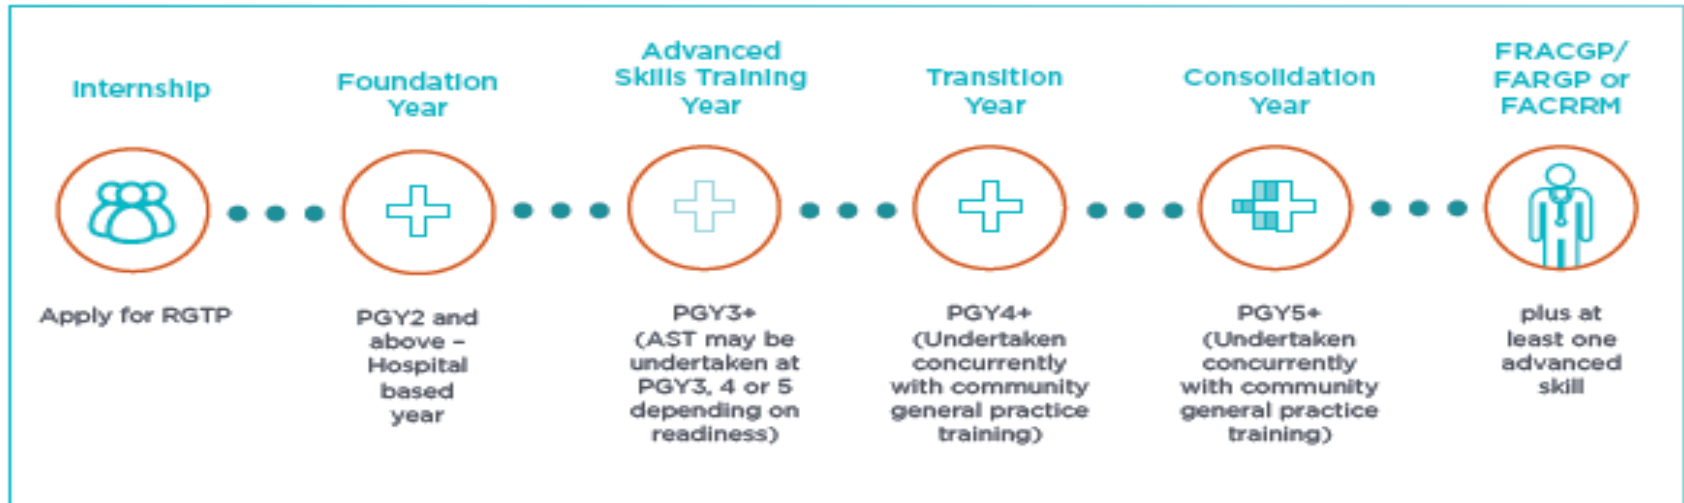

- A supported pathway for junior doctors wishing to pursue a career as a rural general practitioner able to provide:
 - *primary care within a community general practice setting; and*
 - *advanced services and/or procedural skills within a rural hospital*
- Community general practice is the main provider of primary health care in NSW
- The Health Education and Training Institute works with stakeholders to coordinate and deliver a structured training program linking career aspirations with rural training and employment opportunities

NSW – Four Year Program

Training Program is up to four (4) years in duration and integrated with general practice training
