

# Reaching the High Hanging Fruit **TEST CURE LIVE** campaign

Increasing hepatitis C testing and treatment

**SAVE THE DATE Monday 5 August**  
7:30am - 8:30am TEST CURE LIVE satellite meeting at the 2019 AVHEC

## Who are the High Hanging Fruit?

People 50 years+ living with hepatitis C who do not currently inject drugs. They are not engaged with AOD services, they are in our cities, suburbs and local communities.

How the bloody hell do we find them and encourage them to speak to their doctor about testing and/or cure.

Hepatitis Australia is hosting a breakfast satellite meeting at the 2019 Australasian Viral Hepatitis Elimination Conference to showcase the **TEST CURE LIVE** campaign

- Time: 7:30am - 8:30am
- RSVP: [admin@hepatitisaustralia.com](mailto:admin@hepatitisaustralia.com)
- Light breakfast will be provided
- Cost: \$0. Numbers are limited so book early

Co presented with Hepatitis ACT and Hepatitis SA this meeting will explore the successes, challenges and highlights of the first cycle of campaigns in Adelaide and Canberra and future TEST CURE LIVE campaigns.

Join us and hear about the next cycle of TEST CURE LIVE campaigns in NT, WA, QLD and TAS. Be part of something extraordinary and help us reach the high hanging fruit.
