VOLUNTEERING, TRAINING AND PROFESSIONAL DEVELOPMENT

OUR VOLUNTEERS

Disaster Relief Australia (DRA) is a veteran-led non-profit organisation. We unite the skills and experience of Australian Defence Force veterans with emergency service specialists to rapidly deploy disaster relief teams in Australia and around the world in the wake of disasters.

Disaster recovery is challenging work. By combining our volunteer recruitment and training, modern military technology and emergency disaster management best practice, DRA operates at the cutting edge of disaster relief.

Veterans possess skills and experience that define an excellent responder and DRA offers a unique opportunity to be a part of humanitarian efforts with a mission and intensity similar to military service.

TRAINING AND PROFESSIONAL DEVELOPMENT

Training: DRA provides a broad range of general and specialist training. From UAV and imagery analysis to Incident Command Systems and Volunteer Management, our training opportunities are near constant and ever evolving, keeping us at the cutting edge.

Professional Development: DRA recognises the existing skills and experience of military veterans and first responders. Whether you are an experienced leader or a specialist in your field, DRA will both challenge you and help you grow.

Operational Deployments: Deploy on disaster relief operations both in Australia and internationally in the wake of disasters. If you have trained for a war zone, you will excel in a disaster zone.

Employment Opportunities: Whilst DRA is a volunteer-based organisation, opportunities for part and full-time employment are often available. If you are looking to start or progress your career in the disaster relief field, volunteering in DRA is the place to start.
