Northern Goldfields Interconnect (NGI)

Background/Benefits

Mining Opportunities in Mid-West and Goldfields regions

APA has line-of-sight to 30 new mining operations supporting:

\$3bn
Construction
Investment

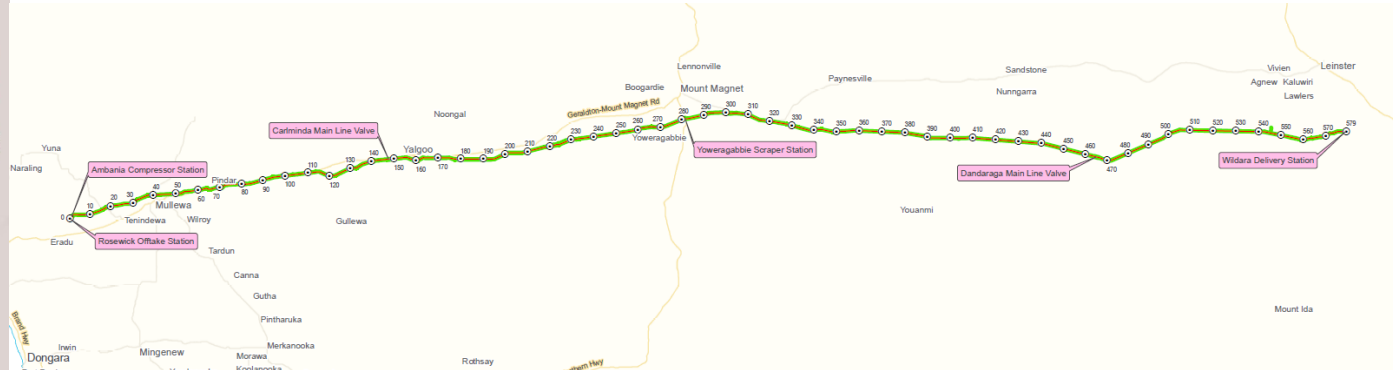

3000
Construction
jobs

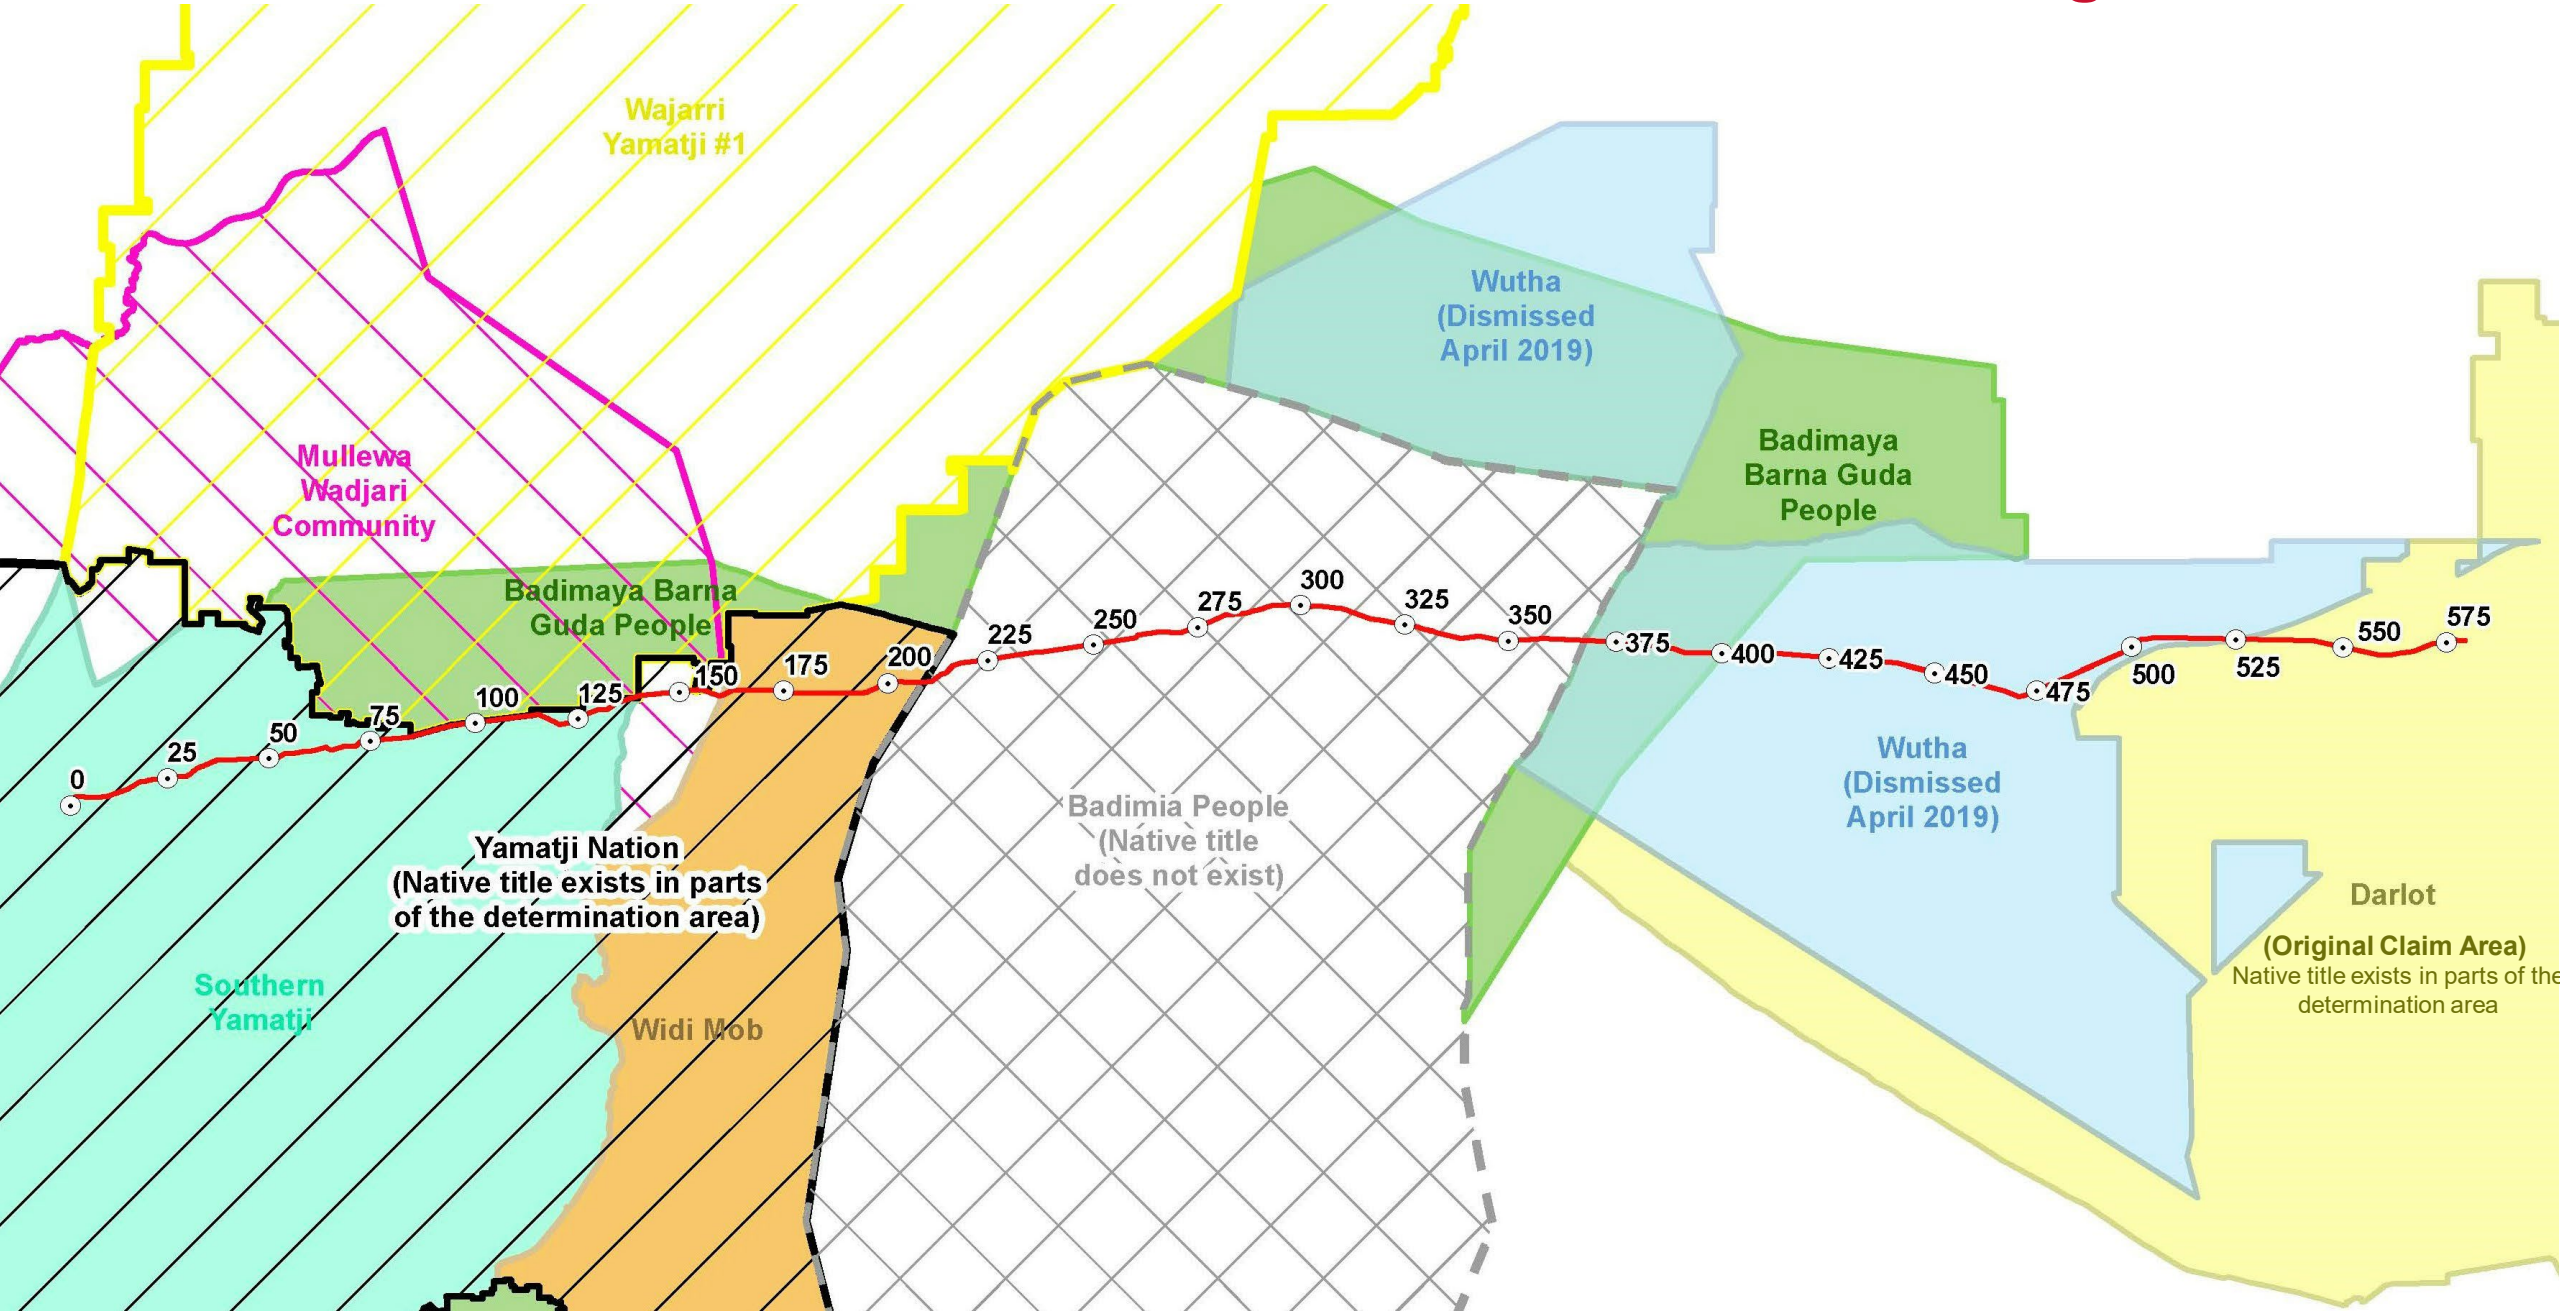

1250
Ongoing
operational
jobs

All these mines have an interest in gas supplies for processing needs or power generation requirements (120TJ/d gas demand).

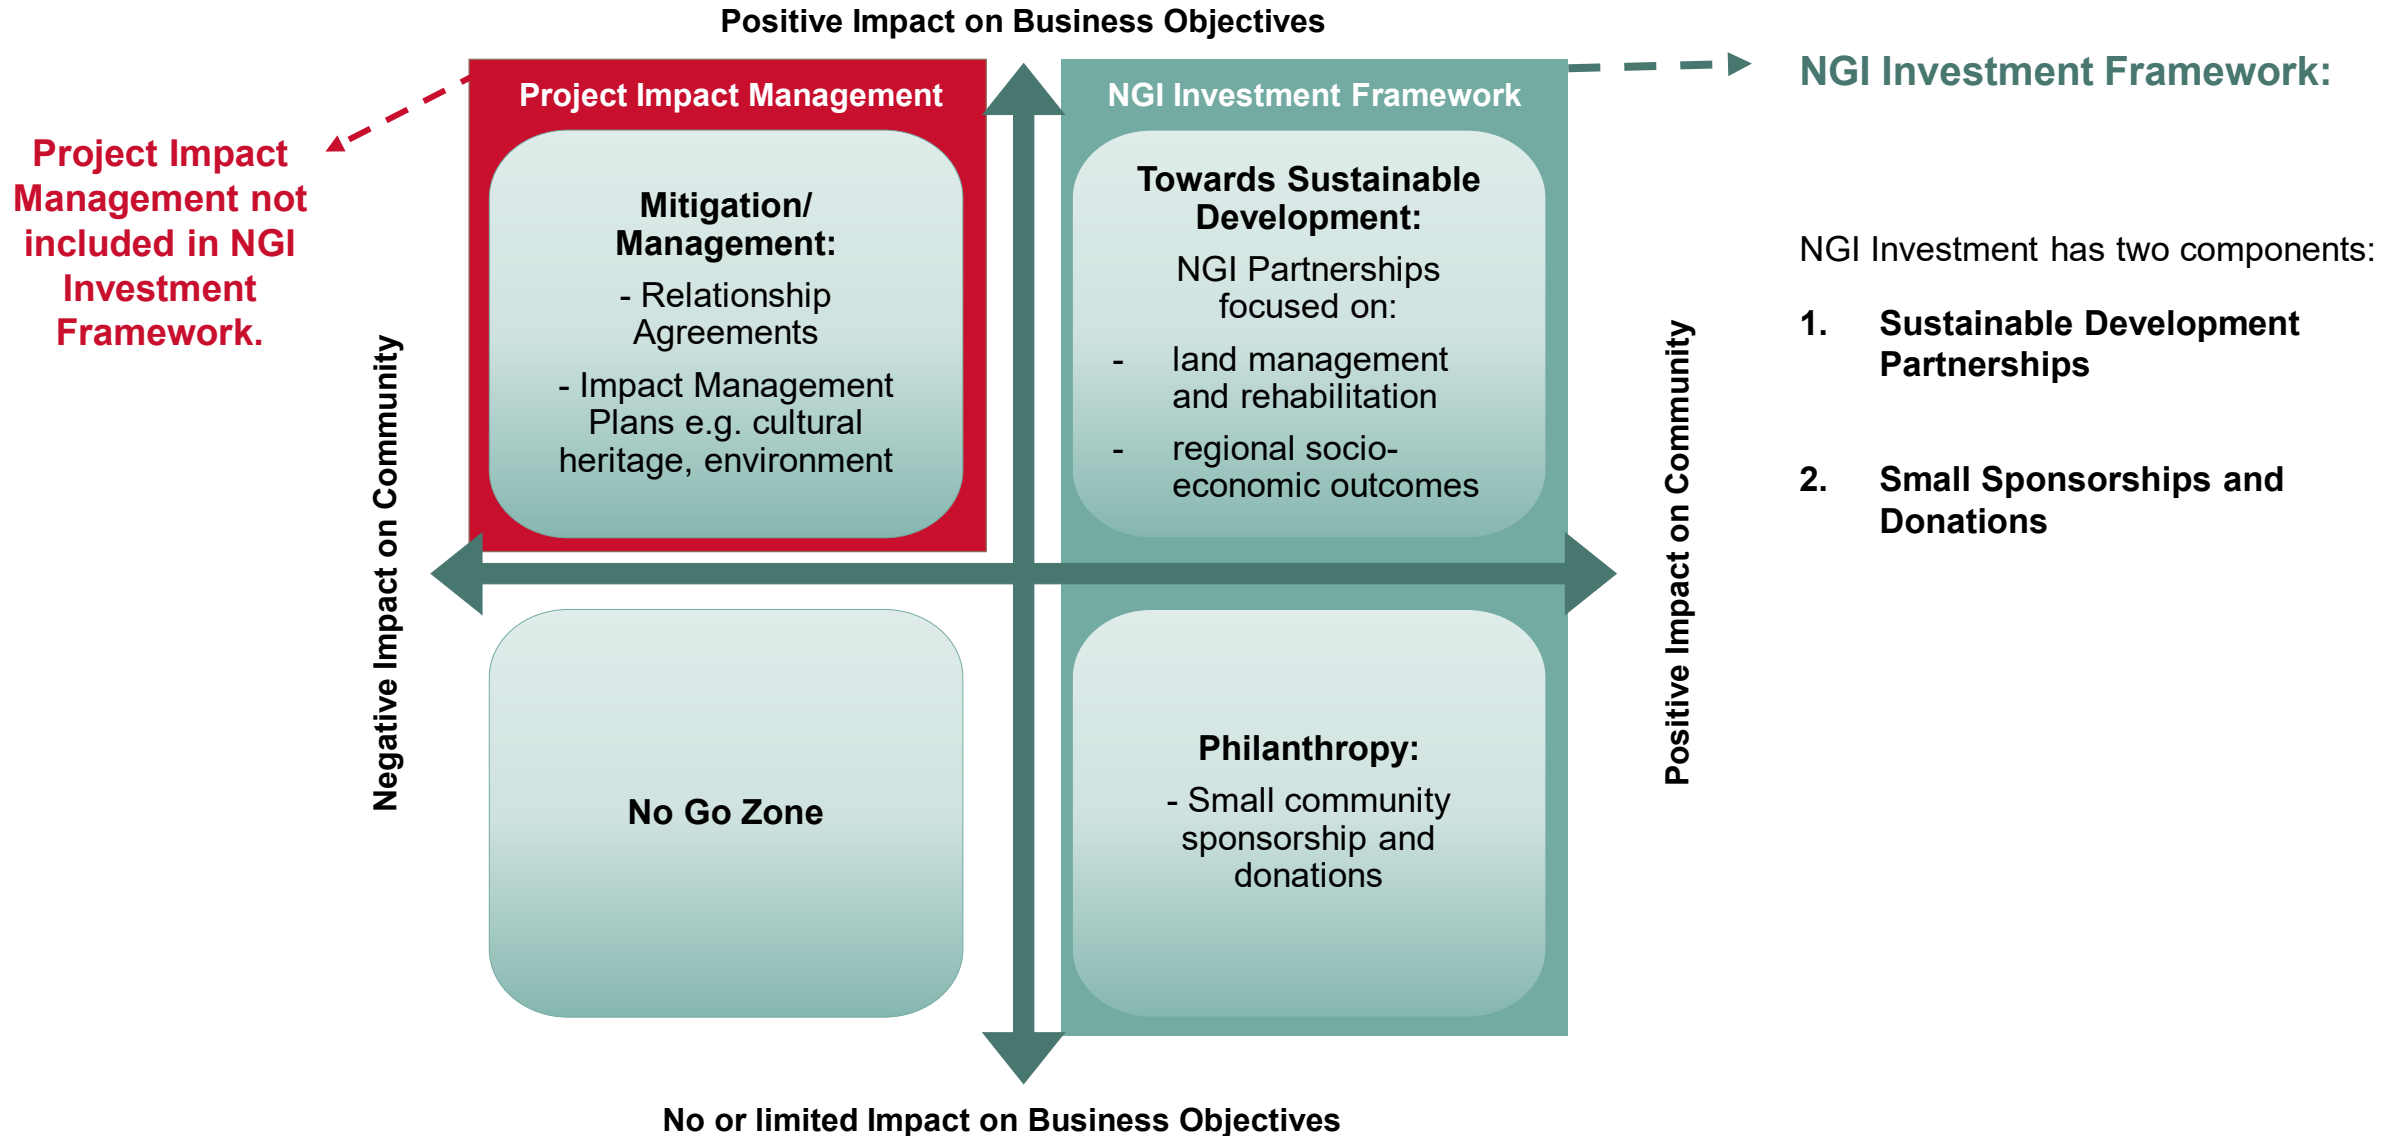

NGI Alignment

Planning Considerations

The NGI Investment Framework includes sustainable development and philanthropy contributions, costs associated with impact management/mitigation are considered elsewhere.

Project Progress

Work is underway in a West to East direction

Commissioning and Operations early 2023
