SUNDAY 3 JUNE 2018 - BY INVITATION				
ROUNDTABLE 1.1				
	Rehabilitation in Dementia			
	Lee-Fay Low ¹			
40.00	¹ University of Sydney, Sydney, NSW, Australia			
10.00am -	This roundtable will bring together existing and interested researchers in rehabilitation in dementia			
12.00pm	from a range of backgrounds including psychologists, occupational therapists, speech pathologists,			
	physiotherapists and medical practitioners. The group will share current projects, identify potential			
	synergies and methodological challenges, and kickstart new research ideas and collaborations. There is also the possibility of working together on a book on the topic. The group will also discuss			
	strategy and opportunities in contributing to advocacy efforts with regards to rehabilitation and			
	dementia.			
	ROUNDTABLE 1.2			
	Exercise is prevention: Recommendations and strategies for the implementation of			
	exercise as a factor to reduce dementia risk			
	Dr Belinda Brown ¹			
	A/Prof Jeremiah Peiffer ¹			
10.00am -	¹ Murdoch University, Western Australia			
12.00pm	The purpose of this roundtable discussion, through engagement with researchers, policymakers,			
F	clinician and consumers, will be to evaluate the impact of exercise on cognitive health resulting in a position statement for the use of exercise as a preventative strategy for dementia. Further			
	discussion will focus on identifying key implementation strategies necessary for the delivery of			
	exercise interventions to the broader aged community. Information from this forum will be used to			
	inform future policy and identify areas of needed research. Discussion of key funding opportunities			
	and strategies to enhance funding success for exercise and dementia research will also be			
12.00pm	discussed.			
12.00pm	ROUNDTABLE 2.1			
	Safe and effective use of medicines in people living with dementia			
	Edwin Tan ¹ , Lisa Kalisch Ellett ² , Tuan Nguyen ² , Julia Gilmartin-Thomas ³ , Emily Reeve ⁴			
	¹ Centre for Medicine Use and Safety, Monash University, Parkville, VIC			
1.00pm -	² School of Pharmacy and Medical Sciences, University of South Australia, Adelaide, SA			
3.00pm	³ School of Public Health and Preventive Medicine, Monash University, Melbourne, VIC ⁴ Kolling			
	Institute of Medical Research, University of Sydney, Sydney, NSW			
	The roundtable session will bring together researchers and health professionals who have an			
	interest in optimising medication use in people living with dementia. It will provide opportunities for local and international research collaboration, the development of new research directions in			
	high priority areas, and the continuation of an ongoing special interest group on this topic.			
	ROUNDTABLE 2.2			
	The long and winding path to prevention part 2: Collaboration and co-ordination of			
	dementia prevention efforts			
	Helen Macpherson			
	Deakin University, Vic, Australia			
1.00pm -	This round table will discuss strategies for researchers to better engage consumers, community			
3.00pm	organisations, clinicians and policy makers in dementia prevention research. We will determine			
5.00pm	how we can more effectively share resources to maximise the impact of dementia prevention research. We will discuss opportunities to contribute to the upcoming Dementia Centre for			
	Research Collaboration (DCRC) initiated interest groups and training program, as well as the			
	International Research Network on Dementia Prevention (IRNDP). This round table will involve			
	participants of the dementia prevention special interest group formed from the 2017 event.			
	Clinicians, representatives from relevant government and NGOs including Dementia Australia and consumer advocacy groups will be invited to participate.			

	MONDAY 4 JUNE 2018		
07.00am	Registration	n desk open	
	JOINT OPENING SESSIONS		
08.30am	Welcome	to Country	
08.45am	Opening: Minister for Aged (Care, the Hon. Ken Wyatt MP	
		via video link	
09.00am		hary: Glenda Halliday	
09.05am	Living with Dementia presentation 1: Isabelle Burke		
	PLENARY 1		
09.15am	EPIDEMIOLOGY OF DEMENTIA IN REAL WORLD SETTINGS:		
	CLUES FROM HEALTH OVER THE LIFECOURSE DR. RACHEL WHITMER		
	RAPID FIRE PRESEN		
10.00am		ells to model of Alzheimer's disease n Hernandez	
10.05am	Detection of dopamine using fluores	scent nanosensors - Dr Olga Shimoni	
10.10am	-	gative health outcomes in elderly Aboriginal Karen Mate	
10.15am	Does statin use affect cognition in older adults? A pilot N-of-1 deprescribing trial - Mr Alexander Clough		
10.20am		e than just efficacy - Ms Nicole Ee	
10.25am		M)" Program for People with Dementia Brancatisano	
10.30am		ing tea

1.30pm	Themed Poster Session Prevention & Care & Living with Dementia		
PARALLEL SESSIONS 2			
	2.1 – PREVENTION CHAIRS: PROFESSOR KAARIN ANSTEY & DR. ASHLEIGH SMITH	2.2 – CARE CHAIRS: PROFESSOR HENRY BRODATY & DR. KYLIE RADFORD	
2.00pm	Association between a dietary inflammatory index and brain MRI biomarkers – the Cognition and Diabetes in Older Tasmanians study - Miss Fateme Zabetiantarghi	Making the Economic Case for Interventions for Dementia: What Now and What Next for Model-Based Evaluations? - Prof Colin Green	
2.15pm	Cerebral atrophy in patients with type 2 diabetes and left ventricular hypertrophy: preliminary data - <i>Dr Sheila K Patel</i>	Facilitating family informed hospital care for the person with dementia - A/Prof Christine Toye	
2.30pm	The potential of the Mediterranean diet for the prevention of dementia in Australia: Research findings, implementation and challenges - <i>Ms Alexandra Wade</i>	Adapting the World Health Organisation iSupport program to the Australian socio- cultural context: A pilot study - A/Prof Lily Xiao	
2.45pm	A decade of collaboration between researchers, health services and Aboriginal communities to understand ageing and dementia - <i>Dr Kylie Radford</i>	Collaborations in Care: Consumer engagement from research question to implementation - <i>Prof Susan Kurrle</i>	
3.00pm	Afternoon Tea		
	JOINT CLOSING SE		
3.30pm		ary: Elizabeth Beattie	
3.35pm 3.45pm		hn Quinn and Glenys Petrie ARY 2	
5.45pm		ARY 2 A Synthesis and Consideration of Current	
		ENDATIONS	
		SEPH GAUGLER	
4.30pm	Panel discussion: Translation to Care		
		beth Beattie	
	Simon Denegri, Professor Joseph Gaugler, Dr. Maria O'Reilly, Dr. Theresa Scott		
5.30pm	5.30pm Monday Program concludes		
WELCOME RECEPTION - BANQUET HALL			
5.30PM-7.30PM			

TUESDAY 5 JUNE 2018				
7.00am				
JOINT OPENING SESSIONS				
8.30am	Introduction to Plena	ry: Dr. Jane Thompson		
8.35am	Living with Dementia 3: Theresa Flavin,			
	interviewed by Maree McCabe, Dementia Australia CEO			
0.45 a.m.		ARY 3		
8.45am		PUBLIC INVOLVEMENT IN RESEARCH DENEGRI		
	PARALLEL SESSI	-		
	3.1 - LIVING WITH DEMENTIA	3.2 - INTERVENTION & TREATMENT		
	CHAIRS: DR. LEE-FAY LOW & DR. CLEMENT LOY	CHAIRS: DR. GENEVIEVE STEINER & ANNETTE MOXEY		
9.30am	Supported decision-making in the context of dementia - <i>Dr Craig Sinclair</i>	Comprehensive touchscreen cognitive characterisation of APP/PS1 mouse model of Alzheimer's disease reveals subtle and progressive impairments - <i>Ms Amy Shepherd</i>		
9.45am	Rights based care and support - Ms Sue Pieters-Hawke	Does stroke induce remote brain atrophy in mice? – Dr Vanessa Helena Brait		
10.00am	Research into practice: The journey towards Brisbane Airport becoming "Dementia Friendly" - <i>Dr Maria O'Reilly</i>	Distinct microglial molecular and functional phenotypes in Alzheimer's disease are controlled by amyloid plaque phagocytosis - Dr Alexandra Grubman		
10.15am	Making the invisible companion of people with dementia visible in economic studies: what is clinical research teaching us? - Dr Kim-Huong Nguyen	Scanning Ultrasound as a novel treatment modality for Alzheimer's Disease - <i>Prof Jürgen Götz</i>		
10.30am		ing tea		
	PARALLEL SESSI	ONS 4		
	4.1 - ASSESSMENT & DIAGNOSIS CHAIRS: DR. SHELLEY FORREST & DR. YEN YING LIM	4.2 - INTERVENTION & TREATMENT CHAIRS: DR. GENEVIEVE STEINER & ANNETTE MOXEY		
11.00am	Group Presentation: Imaging and data	CogTale: A novel repository of cognition- oriented treatment trials - Dr Alex Bahar-Fuchs		
11.15am	platform for dementia research - Dr Olivier Salvado	The Dementia Care in Hospitals Program (DCHP) – Collaboration driving sustainability and national spread - A/Prof Mark Yates		
11.30am	NIA/AA Research Framework: Towards a biological definition of Alzheimer's disease. Implications for research and diagnosis - <i>Prof Christopher Rowe</i>	Improving medication use for people with dementia and the need of a new model of care - <i>Dr Tuan Anh Nguyen</i>		
11.45am	Mixed pathology in Alzheimer's disease - Prof Glenda Halliday	α1-adrenoceptors: Investigating Novel Drug Targets for Alzheimer's Diseases - Ms Alaa Abdul-Ridha		
12.00pm	Distinct TDP-43 inclusion morphologies in Frontotemporal lobar degeneration with and without amyotrophic lateral sclerosis - Dr Rachel Tan	Rectifying functional connectivity in mild cognitive impairment using brain stimulation: Which regions should be targeted? - Dr Leonardo Gollo		

12.15pm	Facial mimicry and arousal in frontotemporal dementia: phenotypic profiles and neural correlates - Dr Fiona Kumfor	Longitudinal assessment of attentional deficits following stroke in rodent models - Dr Katrina O'Brien	
12.30pm	-	nch	
1 2000	Themed Poster Session		
1.30pm	Assessment & Diagnosis, Intervention & Treatment
