

ultrasound systems

Portable & Cart based ultrasound systems for all specialties. Systems from basic black & white, to full colour Doppler systems with Single Crystal technology. We sell only the best and most reliable systems. Specialised ultrasound capabilities such as trans-perineal grid, 4D, intra-operative, and laparoscopic ultrasound.

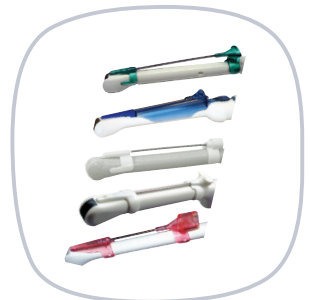

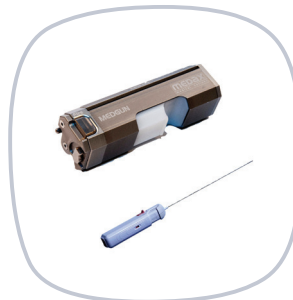

urodynamics

The Medkonsult range of urodynamic systems are designed by clinicians, for clinicians. Unique compact systems with in-built control unit using Windows operating systems. Systems with 5, 8, or 16 measuring channels, precise cystometric pump, waterproof profilometric puller, videourodynamics, & optional built in ultrasound systems are just a few of the advanced features.

procedure couches

Innologic offers a range of examination couches to complete the clinic. Our examination couches are sturdy and safe for both patient and practitioner. Our couches feature ergonomic design and modern functions to simplify treatment.

DP-30

12" Black & White Portable System
Ready to scan in 17 seconds
Optional battery (1.5 hour)

M-5

15" Colour Doppler Portable System
Full applications / measurement package
Full featured, economical colour system

M-7

15" Colour Doppler Portable System
High Resolution Ultrasound System
4D Capable

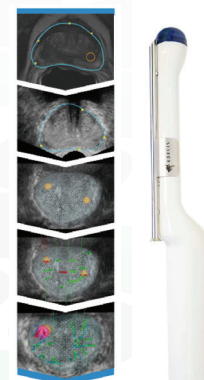

S8EXP

15" Colour Doppler Portable System
High Resolution Ultrasound System
Transperineal grid capable
Laparoscopic transducer available

Trinity MRI-Fusion

Contouring and Target definition
Ultrasound Contour
Elastic Multimodal Fusion
3D Multimodal Mapping

Consumables & Accessories

Biopsy Guns & Needles

Disposable & reusable biopsy guns, as well as Chiba needles in a variety of lengths.

Needle Guides

Disposable & reusable biopsy guides, Latex & Latex Free guide procedure kits for many ultrasound brands at competitive prices.

Probe Covers

Latex & Latex Free Probe covers for all types of probes.

Gel

Ultrasound gel, by the bottle, box, or 5 litre Jug.

Thermal Paper

Quality High Gloss Thermal paper available for all Sony and Mitsubishi printers.

Endoscopic disposables

High quality disposable Endoscopic consumables.

Urodynamics Consumables

A wide range of quality catheters and consumables for your urodynamics clinic. Contact us today to discuss your requirements

Thermal Printer

Part No	Description	Qty
UP-897MD	SONY UP D897, A6 monochrome thermal printer	1/box \$1,990.00

Jive

The Jive urodynamic system caters for all your possible clinical needs. The range has been developed by Clinicians for Clinicians and allows the following diagnostics to be delivered with consummate ease:

- Uroflowmetry
- Cystometry
- Filling and Voiding Cystometry
- Urethral Pressure Profiling (UPP)
- Ano-Rectal Manometry software package

Samba

The Samba urodynamic system is a robust complete 8 channel Urodynamic system capable of multiple test protocols for Urodynamics, with the flexibility to augment additional functionality. An integrated ultrasound system is also an option, to allow for scanning bladder residuals as well as upper & lower tract anatomy. This makes the Samba one of the most versatile machines available on the market today.

- Uroflowmetry
- Standard Cystometry
- Filling & Voiding Cystometry
- Video Urodynamics
- Urethral Pressure Profiles (Profilometry)
- 4 Channel Anorectal Manometry
- Cavernosometry

Danflow Uroflow systems

DanFlow range of flow meters utilise weight cell transducer technology to transform urine flow from the patient into a graphical format, with some additional statistics commonly required such as maximum flow, average flow, volume voided, and flow time. Danflow comes in both wired & wireless PC & thermal printer models.

MD-6000 Bladder Scanner

The all new MD6000 bladder scanner features:

- 3D mechanical sector scanning
- Target locating to achieve best results
- Compact, portable design
- High-sensitivity touch screen
- Built-in rechargeable battery
- Built-in thermal printer and voice notification

Procedure Couches

Innologic supply a variety of quality couches. Talk to us today about your specific requirements.
