GEORGINI

DESIGN

INSPIRATION

Inspired by the beauty that is the Aurora Australis or the Southern Lights, the new AURORA collection by GEORGINI is full of luxurious jewellery to LIGHT UP THE NIGHT.

The Aurora Australis is a natural light display in the Earth's sky, viewable in Australia from the pristine haven that is Tasmania. This electrical phenomenon is characterized by the appearance of streamers of unique colours that light up the shimmering sky.

These splendid gold's and blues speckled with sparkling stars inspired the theme behind AURORA that the night is beautiful, mysterious and full of fun and possibility for all to embrace!

The AURORA collection features glittering pieces for all your night time party events and for those times when a bit of sparkle is desired to lighten up the everyday world or someones day with a wonderful gift.

With a focus on Yellow Gold the hottest metal colour for 2021, on trend oval cut stones and the new release stone colour Sapphire Blue the AURORA collection is made to dazzle all day and all night long!

We hope that the AURORA collection inspires you to LIGHT UP THE NIGHT.

SILVER IE978W \$69

The Aurora Australis, happens when the sun releases a massive burst of solar wind and magnetic fields into space, also known as CME (coronal mass ejections). These solar winds carry particles which interact with earth's magnetic field, colliding to produce energy releases in the form of auroras.
