It gives you the ability to personalise your partner's Wedding Ring, a gift for a friend or loved one or to even add a personal touch to a special piece of jewellery bought for yourself.

Finger Print Engraving

The ultimate personalisation, mark your partner's Wedding Ring with your very own finger print. Permanently engrave your rings with your very own finger print and keep your partner close to you always.

Ask in store for more information.

Complimentary Laser Engraving

Complimentary with the purchase of your new Peter W Beck wedding ring, choose from a selection of fonts and have a personal message laser engraved on the inside or outside of your new Peter W Beck wedding ring.
