

PLACES FOR PEOPLE: TRANSPORT AS AN ENABLER

URBAN DESIGN FORUM

VISION

Promoting urban design excellence across New Zealand.

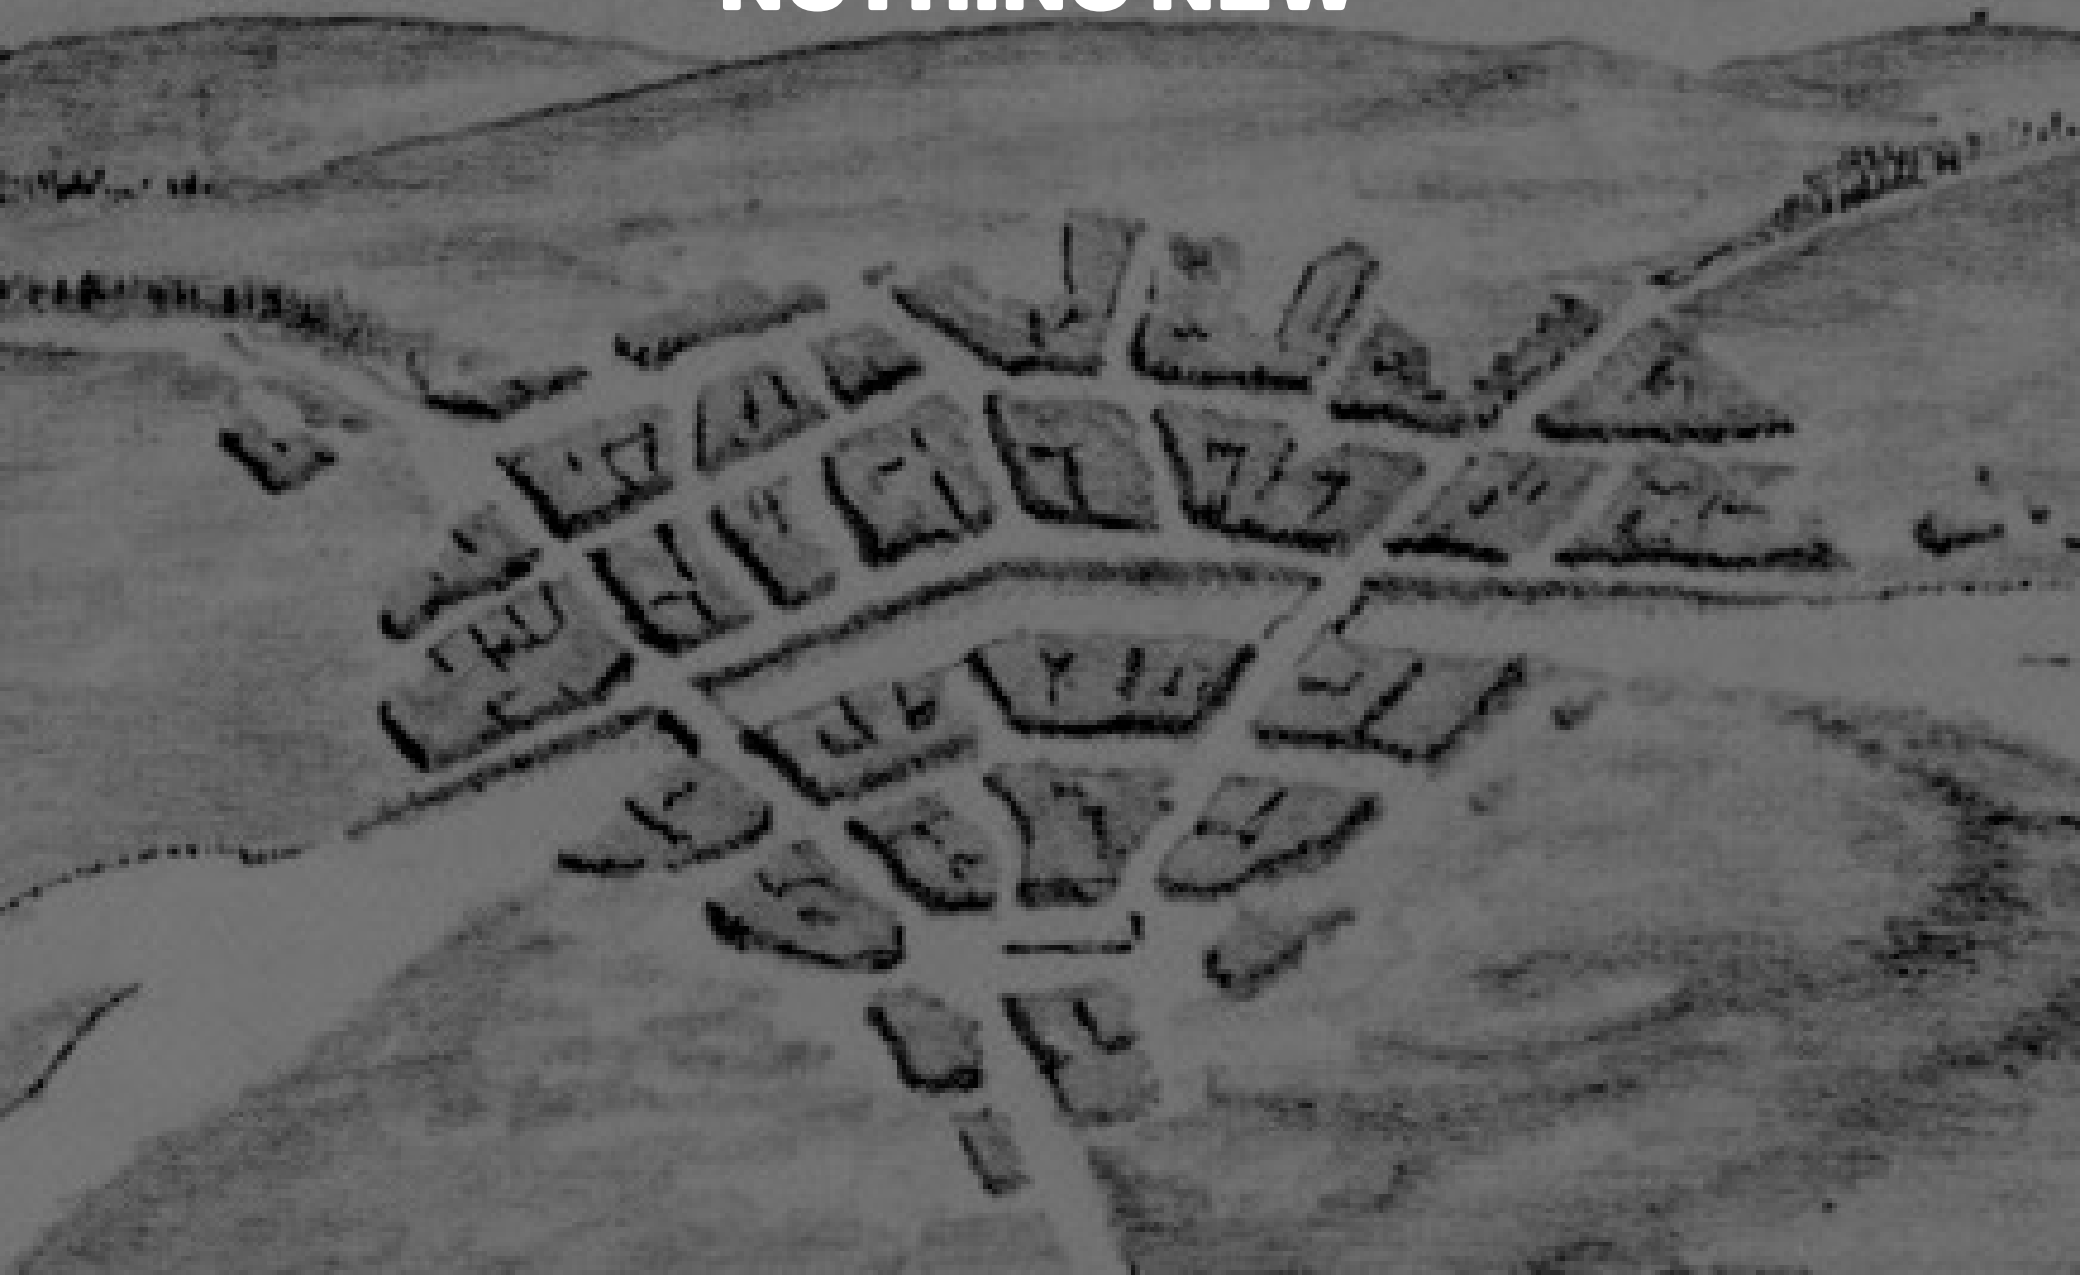

PURPOSE

- Promote cross-disciplinary understanding of urban design and collaboration amongst built environment professionals;
- Raise awareness and appreciation of the benefits of urban design
- Advocate for and influence good quality urban design outcomes
- Provide a forum for discussion of design-based approaches

CREATING QUALITY URBAN PLACES THAT...

- Feel safer
- Encourage healthier lifestyles
- Culturally relevant, promote interaction and are more equitable
- Sustainable and enduring
- Economically prosperous
- Easier to move around
- Enjoyable to spend time in

NOTHING NEW

AN ENGAGING PROCESS

VISION

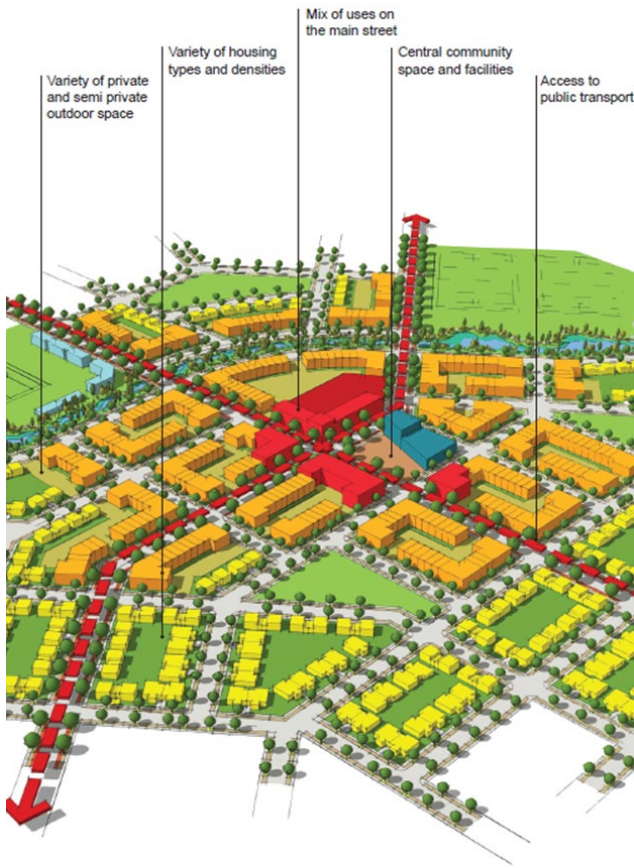

DESIGN PROCESS

PRIORITIES

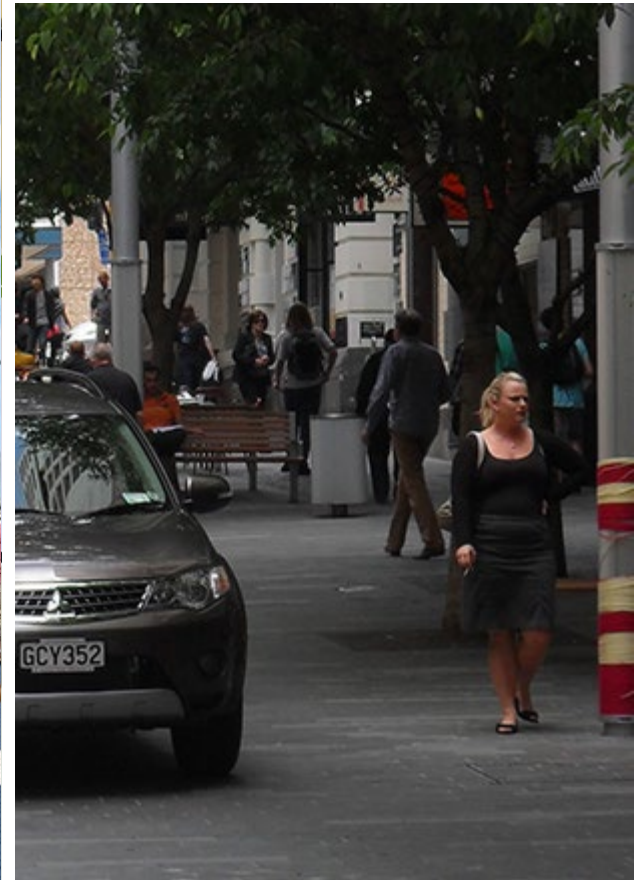

THINKING ACROSS THE SCALES

SPATIAL PLANNING

(RE)ALLOCATION

PLACE

LONG TERM BENEFITS

Transport can play a bigger role in supporting healthy lifestyles

An increase in active transport, walking and cycling, results in...

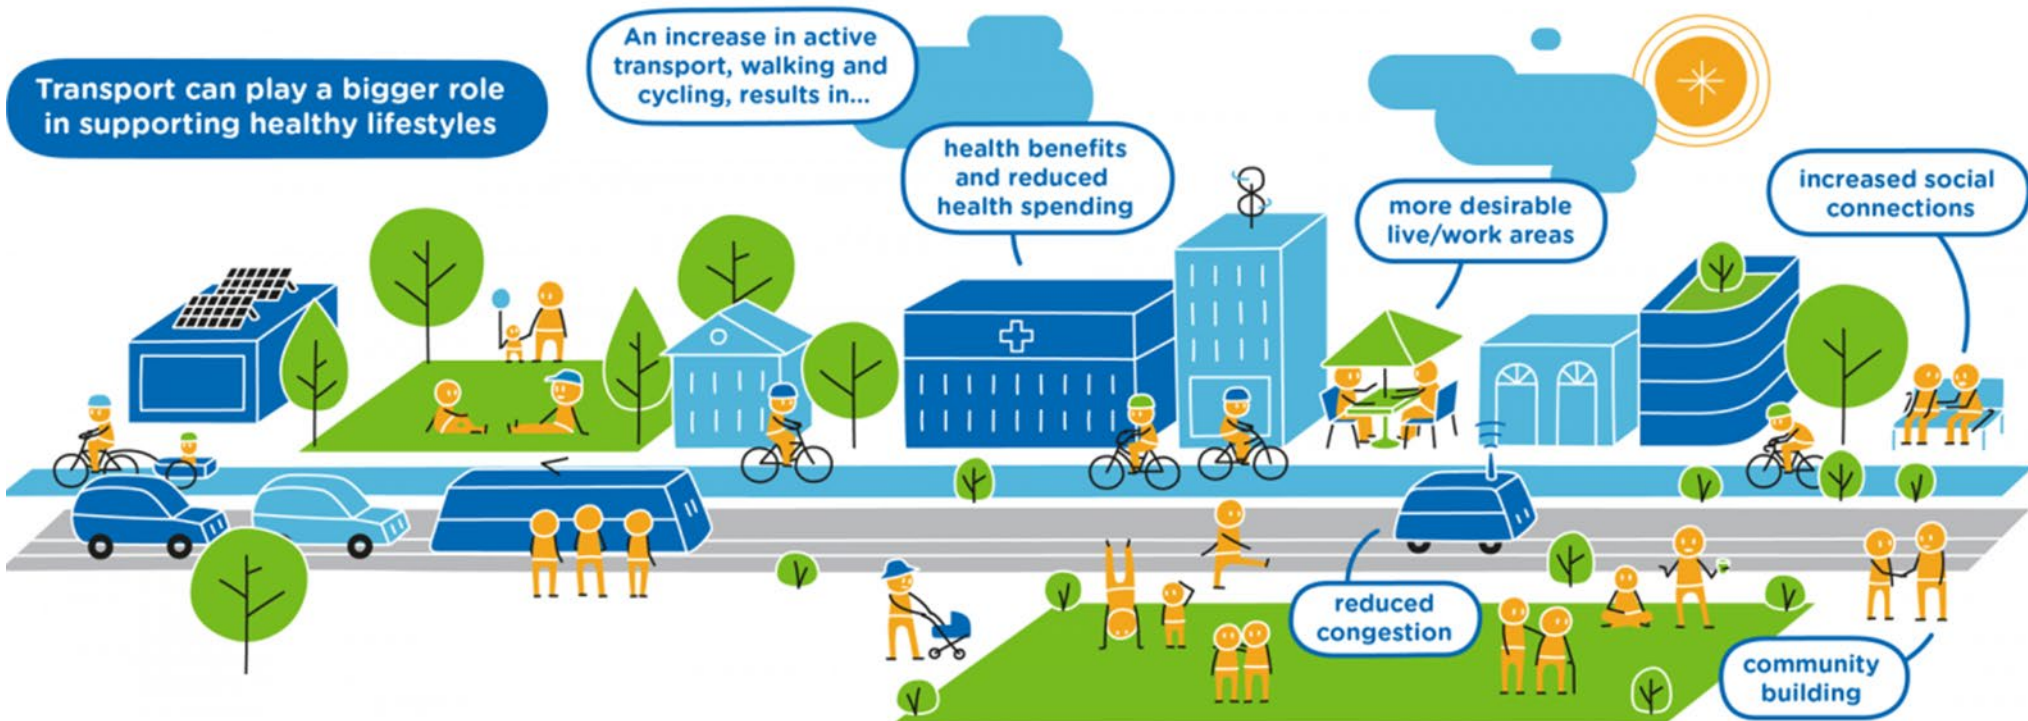

health benefits and reduced health spending

more desirable live/work areas

increased social connections

reduced congestion

community building
