Path Perfect - engaging on pedestrian issues

Path Perfect is an interactive view from the footpath, exploring what we individually find most appealing when we are out walking. We take a wander through some Wellington spaces and dive into more detail on pedestrian-friendly amenity. This installation was part of Wellington's recent Park(ing) Day annual event and resulted in many in-depth thought-provoking discussions. It is a useful approach to engage people without the pressure of specific proposals to comment on that our group has used successfully over time.
