# HIMAA QLD

## Mentoring Program

Health Information Managers are invited to participate in the 2021 Mentoring

The HIMAAQ mentoring program provides students in their final two years of university the opportunity to engage with a HIM professional working in the industry to assist with career planning and preparing for the transition from university to working life. One of the most important things we can do as a profession is invest in those younger than us. This will ensure the longevity of the profession for years to come. Pay it forward!

The mentor program includes a program launch which will be held in June, free time for you to catch up with your mentee and a program close.

It is a commitment of one calendar year.

HIMAAQ are currently seeking HIM professionals who have been working in the industry for minimum 5 years who are willing to take on the role of mentor to guide our upcoming students as they plan their careers and transition into working life.

If you are willing to take on this important role, please send an email to [Tammy.Kang@health.qld.gov.au](mailto:Tammy.Kang@health.qld.gov.au). Please include a brief synopsis of your working career to assist with matching you to a suitable mentee.

**Expressions of interest close 14 May 2021.**

For more information, please contact Alisha Lucas or Tammy Kang, mentor Program Coordinators via email [Alisha.Lucas@health.qld.gov.au](mailto:Alisha.Lucas@health.qld.gov.au)
