

James Cole

Special Counsel, Albrecht Burrows

Day 1 The Legal Profession

Data – what is it, what is its value and what can you do with it?

2.00pm – 3.00pm

About James Cole

James is a specialist in cyber, data protection, and privacy law. He has led major projects advising on data protection and cyber risk management strategies, conducting data privacy impact assessments, and has experience with technology contract negotiations and disputes. James has led multidisciplinary teams in responding to hundreds of

active cyber incidents including ransomware, email compromise, and privacy breach events working closely with cyber insurers. James has worked with private sector companies across a wide range of industries, including Fortune 500 and ASX 200, and public sector entities in Canada, the United States, the United Kingdom, and Australia helping them to develop pragmatic data protection practices.

James is admitted as a Lawyer in the Supreme Court of NSW and the High Court of Australia and is currently seeking admission in Canada (British Columbia). He read law at the University of British Columbia and Queensland University of Technology. Besides being a solicitor, James is a Computer Scientist, and holds other advanced degrees in Business Administration, International Security Studies, and Policing, Intelligence and Counter Terrorism. He is published in cyber terrorism and is certified in Data Protection Practice by the Law Society of Ireland. James is also a Certified Privacy Professional / Europe (CIPP/E).

James is a member of the Law Society of NSW, the International Association of Privacy Professionals, and the Chartered Insurance Institute.
