Tips for Poster Preparation

- You should design your Poster so it can be easily read from a distance of up to 2 metres

 - Smaller fonts may be used in citations and acknowledgement

- Suggest standard fonts/typefaces (such as Arial, Helvetica, Calibri, Times New Roman)
- Choose your colours to provide strong contrast and avoid pairing red and green elements to assist those with red-green colour blindness
- We recommend using graphics and images wherever desirable to display/summarise your information as clearly as possible and avoid using too much text

Producing your Poster

- You are personally responsible for printing your poster and bringing it to the Congress venue. We recommend having the poster laminated if possible
- The Congress is able to provide contact details for a printing service in Sydney where you could send your poster file to be printed/laminated and made available to you at the Congress venue should you wish to avoid carrying the poster during international travel to the Congress. This service will be at the responsibility of the poster author
