

Airway Surgery Workshop

Date: Sunday 10 - Monday 11 March 2024 (2-day workshop)

Venue: Hill Surgical Workshop and Seminar Room, CTEC, University of WA

Convener: Dr Hayley Herbert

1:00pm – 5:00pm Sunday 10 March 2024

1:00pm – 1:15pm Welcome

1:15pm – 2:00pm Lectures

Laryngeal reinnervation (JO)

LTR (SG)

Lateralisation (PS)

2:00pm – 5:00pm Practical

8:00am – 12:00pm Monday 11 March 2024

8:00am – 8:45am Lectures

CTR (SV)

Slide Tracheoplasty (DM)

Medialisation thyroplasty (DV)

8:45am – 11:45am Practical

Inspiring Innovation

We are excited to convene the first Laryngology Dissection Course to include Recurrent Laryngeal Re-Innervation in Australasia. The course will also demonstrate complex open airway surgery including laryngotracheal reconstruction, cricotracheal reconstruction, slide tracheoplasty, vocal fold medialisation and lateralisation.

Dissectors have the opportunity to perform these procedures with careful supervision from esteemed international and national faculty including Dr Julina Ongkasuwan, Dr Deepak Mehta (Texas Children's Hospital) and Dr Steven Goudy (Children's Healthcare of Atlanta).

The course will take place over two half-days at the end of the 2024 ASOHNS Annual Scientific Meeting at the University of Western Australia's CTEC facility. A dissection manual will be provided, and a course dinner will be held on Sunday night.

Places for dissectors and observers will be available.
