Invitation

Resilience, Respect, Refinement – A Positive Adaption to the COVID-19 Era

Dear Colleagues,

It is with great anticipation, on behalf of the organising committee, I invite you to join us in Hobart from Friday 21 to Monday 24 October 2022 for the Australian and New Zealand Society for Vascular Surgery (ANZSVS) Annual Scientific Conference, in conjunction with the Australian and New Zealand Society for Vascular Nursing (ANZSVN).

Tasmania is the Apple Isle renowned for its natural landscapes with world heritage listed national parks and sites. Hobart has emerged as a gourmet destination with excellence in local quality produce and cool climate wines. With plans in place to facilitate domestic and international travel, we hope that this Conference will be a celebration and reunion for many members of the vascular community.

As our knowledge and understanding of vascular pathology has grown, we have been able to optimise and advance vascular care. This Conference will focus on the refinements achieved in endovascular and Vascular Surgery and the possibilities in the future. The program will be filled with engaging local and international experts that will share their insights into Vascular Surgery. We are very privileged to be joined by our international invited speakers, Dr Sukgu Han (USA), Associate Professor Philip Goodney (USA), Dr Ross Milner (USA) and Professor Ross Naylor (UK), who have accepted our invitations to join us in Hobart in 2022. As a society, we have great resilience and respect for each other, and these have been reinforced through the challenges of the COVID-19 pandemic. As such, the theme of this year's Conference is Resilience, Respect, Refinement – A Positive Adaption to the COVID–19 Era.

The Australian and New Zealand Society for Vascular Nursing (ANZSVN) will once again be running parallel sessions from Friday 21 to Sunday 23 October 2022. This will be a dynamic and enlightening program convened by Juliet Scott, our local expert in complex wound management.

From a social perspective, we will be hosting the annual society conference dinner with fantastic food and entertainment at the incredible Aura Restaurant.

We are extremely thankful for our industry sponsors' support and participation, in particular, our Platinum Sponsors; Gore & Associates and Medtronic, our Gold Sponsor, Cook Medical and our Silver Sponsor, Boston Scientific. There is always the opportunity to spend time in the industry exhibition between sessions to catch up with old colleagues and make new connections.

After the last two years of challenges, we are very much looking forward to all gathering as a group again in Hobart at the ANZSVS Conference 2022.

Dr Cathy Thoo FRACS

Company Profiles

Platinum Sponsor

Gore engineers medical devices that treat a range of cardiovascular and other health conditions. With more than 50 million medical devices implanted over the course of more than 45 years, Gore builds on its legacy of improving patient outcomes through research, education and quality initiatives. Product performance, ease of use and quality of service provide sustainable cost savings for physicians, hospitals and insurers. Gore is joined in service with clinicians and through this collaboration we are improving lives.

Medtronic

Platinum Sponsor

Bold thinking. Bolder actions. We are Medtronic. We lead global healthcare technology and boldly attack the most challenging health problems facing humanity by searching out and finding solutions. Our Mission — to alleviate pain, restore health, and extend life — unites a global team of 90,000+ passionate people. Powered by our diverse knowledge, insatiable curiosity, and desire to help all those who need it, we deliver innovative technologies that transform the lives of two people every second, every hour, every day. Expect more from us as we empower insight-driven care, experiences that put people first, and better outcomes for our world. In everything we do, we are engineering the extraordinary.

Gold Sponsor

An innovator in minimally invasive medical devices.

Developing and selling minimally invasive medical devices since 1963, Cook is a successful, growing, family-owned company—just as it has been from the beginning. This means we can focus on what we care about—patients, our employees and our communities. Our products, manufactured in North America, Europe and Australia, are sold and delivered to 135 countries, serving almost every system in the human body and every area of the hospital. We have more than 10,000 employees globally who are all dedicated to delivering clinically effective options to physicians and better healthcare to the patients we serve.

At Cook, we believe products and solutions that deliver the best patient outcomes are developed through collaboration. We work closely with physicians, inventors, universities and research institutes to identify a clinical need and bring in simple solutions to solve complex problems. Because of these partnerships, we are able to offer a range of state-of-the-art treatment options for physicians and patients around the globe.

Company Profiles (cont'd)

Boston Scientific
Advancing science for life™

Silver Sponsor

Boston Scientific is dedicated to transforming lives through innovative medical solutions that improve the health of patients around the world.

Our work is guided by core values that define Boston Scientific culture and empower our employees.

Transforming lives with less-invasive technologies engineered to diagnose and treat a wide range of medical conditions

We're dedicated to collaborating with healthcare professionals to develop a broad portfolio of meaningful innovations that improve outcomes, reduce costs, increase efficiencies and — most importantly — help more people in more places around the world live longer, healthier lives.

Peripheral Interventions

Leading in minimally invasive therapies for arterial disease, venous disease and cancer

Delivering Meaningful Innovation

Advancing the Treatment of Arterial Disease. We've built a strong portfolio of products to serve this market and are uniquely positioned to provide physicians and hospital systems with a full tool box of solutions to treat patients.

Venous Therapies. Our venous portfolio offers a category-leading breadth of venous technologies including: venous stents, endovenous chemical ablation, ultrasound assisted clot dissolution devices, mechanical thrombectomy, and imaging catheters.

Tumor-Tackling Technologies. Our interventional oncology portfolio includes embolization technologies, and ablation technologies, all designed to prevent growth and cause tumor necrosis.

Conference Visitors

Associate Professor Philip Goodney
Lebanon, USA

Dr Philip Goodney is a vascular surgeon, health services researcher, Vice Chair of Research in the Department of Surgery, Director of the Center for the Evaluation of Surgical Care at Dartmouth (CESC), and Co-Director of the VA Outcomes Group at Veterans Affairs Medical Center in White River Junction, Vermont. His research interests include outcomes assessment using both quantitative and qualitative methods, clinical trials, patient preferences, and shared decision making. He received a Career Development Award from the National Heart, Lung, and Blood Institute in 2010, the Lifeline Research Award from the Society for Vascular Surgery (SVS), and research funding from VA HSR&D, PCORI, FDA and others. He was elected to the American Surgical Association in 2016, and serves on multiple editorial boards of surgical, cardiovascular, and health services journals.

Within the Vascular Quality Initiative, the SVS's quality improvement program, Goodney is Chair of the Research Advisory Committee. He leads the development of the Vascular Implant Surveillance and Interventional Outcomes Network (VISION), a claims/registry-based surveillance distributed research network which links Medicare data to the SVS's national registry to allow timely tracking of short- and long-term outcomes across 407 hospitals and practices across the United States. Goodney also leads a 20-site, cluster-randomized trial of a decision aid for military veterans facing treatment for an abdominal aortic aneurysm, PROVE-AAA.

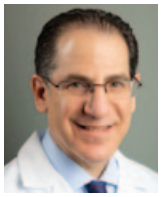
Since joining the faculty at Dartmouth in 2008, Goodney has mentored over 25 young clinicians and scientists in the early stages of their research careers, including surgical residents, clinical Fellows, and faculty with career development awards.

Goodney earned a BS from the University of Connecticut, an MD from the University of Connecticut School of Medicine, and an MS from the Dartmouth Institute for Health Policy and Clinical Practice.

Dr Sukgu Han
Los Angeles, USA

Dr Han serves as a Co-director of Comprehensive Aortic Center at Keck Hospital of University of Southern California. He holds the title of Assistant Professor of Surgery in the Division of Vascular Surgery and Endovascular Therapy, Keck School of Medicine of USC. Dr Han completed his undergraduate education at the University of California, Irvine, where he graduated with magna cum laude honors in 2000. He obtained his M.D. from the University of California, Irvine School of Medicine, where he was awarded a membership of Alpha Omega Alpha honors society as a third-year medical student. He completed General Surgery training at the University of Southern California, where he was voted the most outstanding chief resident by the faculty in 2012. During his residency, he also obtained a master's degree in biomedical engineering at the Viterbi School of Engineering at USC. Dr Han went on to complete Vascular Surgery fellowship training at the University of California, San Francisco. Dr Han obtained additional dedicated training in complex aortic repairs at the Mayo Clinic in Rochester, MN. Since joining USC as faculty in 2014, Dr Han has been instrumental in advancing the Aortic Center at Keck Medical Center of USC as one of the most robust programs in the country for care of patients with aortic emergencies and complex aortic pathologies. Dr Han also serves as a principal investigator on numerous clinical trials on cutting-edge branched, fenestrated endovascular aortic stent grafts. Dr Han is a frequent invited lecturer on complex aortic repairs at both national and international meetings. He maintains one of the busiest clinical practices at USC. Dr Han is board certified in Vascular Surgery and General Surgery.

Conference Visitors (cont'd)



Professor Ross Milner
Chicago, USA

Ross Milner, MD, is an internationally recognized expert in vascular surgery. He specializes in the treatment of complex aortic diseases.

Dr Milner has been the primary investigator on numerous endovascular device trials. He is the co-national principal investigator for the GREAT registry and TRIOMPHE trial. He examined the use of remote pressure sensor monitoring for surveillance after endovascular aortic aneurysm repair as part of a research fellowship that he completed at the University Medical Center of Utrecht as the Marco Polo Fellow of the Society for Vascular Surgery. Since that time, he has been involved with many studies that evaluate endovascular devices for both thoracic aortic disease and abdominal aortic aneurysms.

A dedicated educator and mentor, Dr Milner teaches medical students, residents and fellows about vascular disease management, including the use of aortic stents. He has received numerous awards for his teaching. In addition, he is frequently invited to speak at national and international conferences on vascular surgery and aortic aneurysms. He has been recognized as the first master clinician of the Bucksbaum Institute for Clinical Excellence.

A prolific author, Dr Milner has written more than 200 abstracts and manuscripts, as well as more than 20 reviews and chapters in leading textbooks on endovascular therapies. In addition, he is the Editor in Chief of Vascular and serves on the editorial board for several prominent scientific journals, including The European Journal of Vascular and Endovascular Surgery Vascular Forum, Annals of Vascular Surgery, and Endovascular Today.

Professor Ross Naylor
Leicester, UK

Professor Ross Naylor is Professor of Vascular Surgery at the Leicester Vascular Institute, Leicester, United Kingdom and is a Past President of the Vascular Society of Great Britain and Ireland (VASGBI; 2011-2012). He has coedited three textbooks of vascular surgery, authored 77 book chapters and co-authored 529 peer reviewed publications. His specialist clinical and research interests are in carotid and cerebral vascular disease. Professor Naylor has served on the Councils of the VSGBI, (2006-2012), the European Society for Vascular Surgery (ESVS; 2010-2016) and the World Federation of Vascular Societies (2018-current). He has served on the Editorial Boards of the British Journal of Surgery (2000-2005), the Journal of Vascular Surgery (2003-2008; 2016-2020) and the European Journal of Vascular & Endovascular Surgery (EJVES; 2006-2016). He is a past Editor in Chief of EJVES and was awarded an honorary membership of the ESVS in 2018. He has served as co-chairman of the 2017 and 2022 ESVS guidelines on the management of carotid and vertebral artery disease.

Medtronic

Expanding patient care options

A solution to meet your AV access needs.

A short neck solution, independent of renal stenting.

Standardised use of ENDURANT™ II for chevar.

Submission of Abstracts for Research and Invited Papers

All submissions will be entirely by electronic means. Abstract Submission can be accessed through the ANZSVS Conference 2022 website: anzsvs.com.

Paper Types

The ANZSVS Conference 2022 is accepting abstracts for the below categories. You must indicate the paper type when submitting online.

- Verbal presentation
- e-Poster

Discipline

The ANZSVS Conference 2022 Organising Committee requests authors to submit abstracts in the following disciplines.

- Vascular
- Nursing

Several points require emphasis:

1. Authors of research papers who wish to have their abstracts considered for presentation (verbal or poster) must submit their abstract electronically via the Conference website having regard to the published closing date. Abstracts submitted after the closing date will not be considered.
2. The title should be brief and explicit.
3. Research papers should follow the format - Purpose, Methodology, Results, Conclusion.
4. Excluding title, authors (full given first name and family name) and institution, the abstract must not exceed 2,000 characters and spaces (approximately 300 words). In MS Word, this count can be determined from the 'Tools menu'. Any references must be included in this allowance. If you exceed this limit, the excess text will NOT appear on the conference platform.
5. Abbreviations should be used only in common terms. For uncommon terms, the abbreviation should be given in brackets after the first full use of the word.
6. Presentations (slide and video) will only have electronic PowerPoint support. Audio visual instructions will be available in correspondence sent to all successful authors.
7. A 50 word CV is required from each presenter to facilitate the Chair's introduction. The excess text will not be captured by the system.
8. The acceptance, timing, presentation and discussion of all papers and posters is at the discretion of the Organising Committee. Notification of the timing of presentations will appear in correspondence sent to all successful authors.
9. Tables, diagrams, graphs, etc. CANNOT be accepted in the abstract submission. This is due to the limitations of the computer software program.
10. Please do not type in your abstract onto the submission page. Being internet based, each page on the submission site can only be open for 15 minutes before closing. Type your submission on a text document (eg. MS Word) and copy and paste it into the abstract text field.
11. Authors must be registered for the Conference in order to present their abstract (verbal or e-Poster) at the conference.
12. Authors are required to declare conflict of interest if applicable. Failure or refusal to disclose or the inability to resolve the identified conflict will result in the abstract acceptance being withdrawn.

Submission of Abstracts for Research and Invited Papers (cont'd)

The submitting author of an abstract will ALWAYS receive email confirmation of receipt of the abstract into the submission site. If you do not receive a confirmation email within 24 hours it may mean the abstract has not been received. In this circumstance, please email: vascular@surgeons.org to determine why a confirmation email has not been received.

Best Trainee Research Paper Prize

The Best Trainee Research Prize is awarded to a Trainee of the Australian and New Zealand Society for Vascular Surgery for the best presentation delivered at the Conference.

The recipient will be awarded $5,000.00 towards the cost of attending a local or international Vascular Surgery Scientific Meeting. The winner will be announced at the Conference Dinner and subsequently a letter will be sent to the recipient.

Trainee Education Sponsor

An opportunity is available for ANZSVS Trainees to receive support towards their attendance at the upcoming ANZSVS Conference 2022. Trainees who meet the following criteria will be eligible to receive a partial refund of their registration:

1. Submit an abstract that is accepted for verbal or poster presentation at the ANZSVS Conference 2022.
2. Register and attend the Conference.

Submission Information

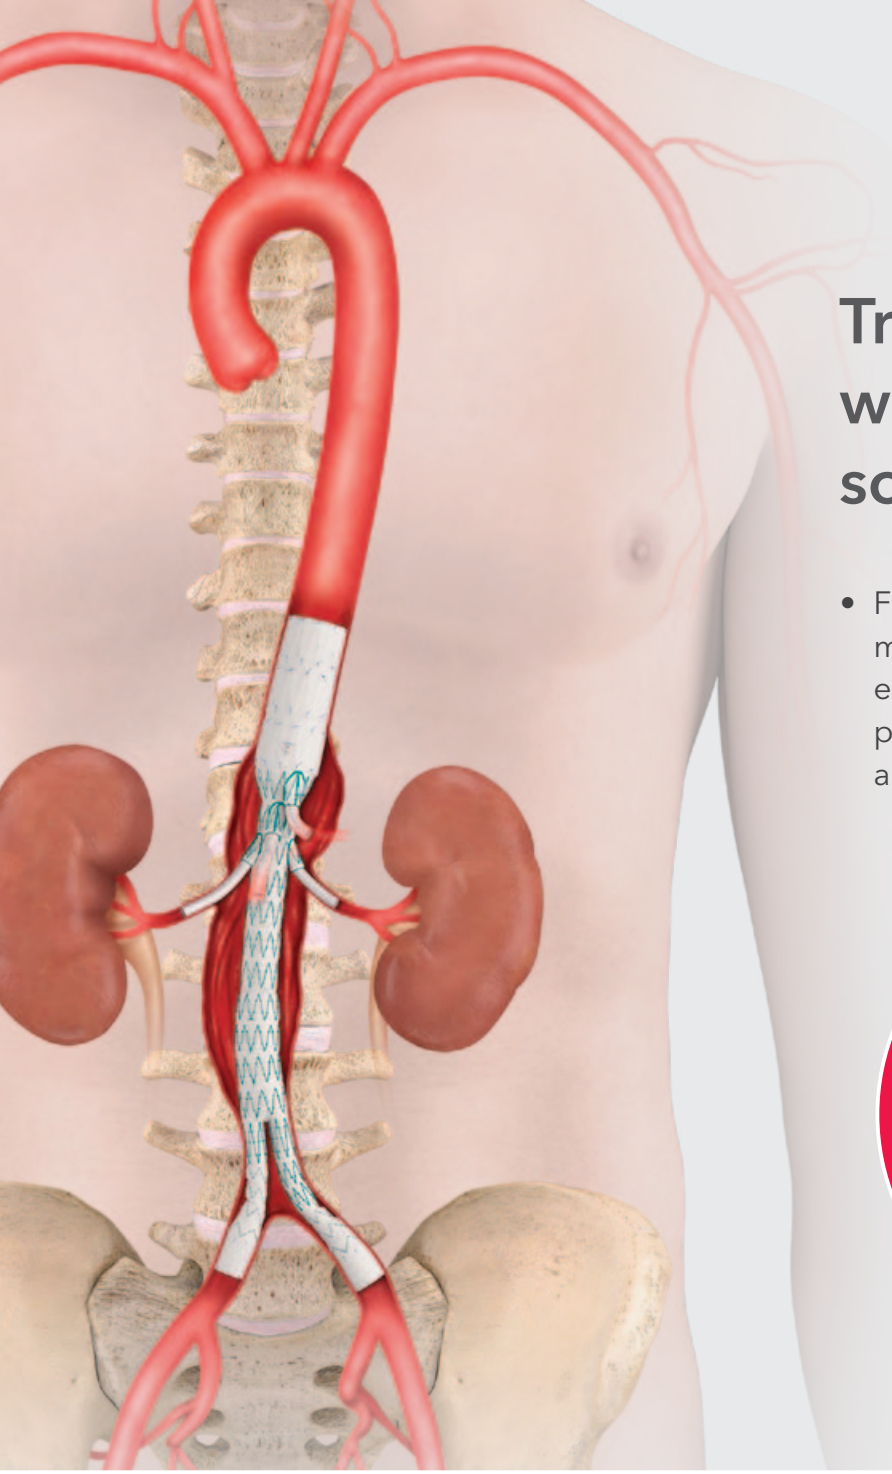
Important Information

Please note that paper or facsimile copies will not be accepted, nor will abstracts be submitted by RACS staff on behalf of authors.

If there are any difficulties regarding this process, please contact vascular@surgeons.org for assistance.

Important Dates

Abstract Submission Open	Now Open
Closure of Abstracts	Sunday 26 June 2022
Closure of Early Registration	Sunday 11 September 2022



Treat more patients with an off-the-shelf solution.

- First off-the-shelf standardised multibranched endograft for the endovascular repair of high risk patients with thoracoabdominal aneurysms.

Over 4,700 patients globally

Zenith® t-Branch®

THORACOABDOMINAL ENDOVASCULAR GRAFT

COOK® MEDICAL

cookmedical.com.au/clinical-divisions

© COOK 10/2021 AI-D62746-EN-F

Submissions for "Challenge the Experts" Session

Members (including trainee members) are invited to submit challenging cases to be considered for the special "Challenge the Experts" session. The presenter of the winning Challenge will be awarded a $1,000.00 prize. Submissions will be judged by a panel from the Organising Committee but are to be submitted in the form of a short PowerPoint presentation directly via e-mail to dr.bourke@gvs.com.au by **Sunday 26 June 2022**.

Please note:

1. An abstract is not required
2. Presentations should be strictly 5 minutes duration leaving 10 minutes for panel discussion
3. Maximum of 6 slides
   - Slide 1: Title slide: Include all authors with affiliations (this slide will be temporarily removed to facilitate unbiased judging by the panel)
   - Slide 2: Background (history, examination etc.)
   - Slide 3: Image/video/photo
   - Slide 4: Image/video/photo
   - Slide 5: A clear enunciation of the challenge
   - Slide 6: Your own solution to the challenge: to appear at an appropriate time toward the conclusion of the discussion at the direction of the chairman
4. Back up slides (4-5) are permissible but are only to be used if appropriate during discussion and at the discretion of the chair. These are to be included (to follow slide 6) in the submission but will not be used during judging of the submission
5. If you wish to show a full video, please bring a copy along to the Conference to be uploaded as part of your presentation. We encourage CT scans to be brought in video format so they can be uploaded as part of your presentation allowing you to flick through the full range of images on request. **Please note:** DO NOT send videos to the Conference Organiser.
6. A panel decision will be e-mailed to submitters by Monday 18 July 2022.

The best judged challenger on the day will be asked to present an expanded presentation in the main session. In accordance with the CV Scoring guidelines for the vascular SET program, the presentation may be eligible for CV points. All challengers will therefore need to prepare to potentially present a critical analysis of the evidence for management of the novel vascular condition.

Important Dates

Challenge the Experts Submissions Close	Sunday 26 June 2022

10:30am – 12:30pm **SKIN INTEGRITY**

12:30pm – 1:30pm **LUNCH**

1:30pm – 3:00pm **PALLIATION VS SURGERY PANEL**

3:00pm – 3:30pm **AFTERNOON TEA**

3:30pm – 4:30pm **RESILIENCE, RESPECT, REFINEMENT FOR VASCULAR NURSES**

4:30pm – 5:15pm **ANZSVN ANNUAL GENERAL MEETING AND AWARDS**

7:00pm – 10:30pm **CONFERENCE DINNER (TICKETED EVENT)**

Medtronic

Strong peripheral embolisation solutions

MVP™ micro vascular plug system

- Delivers through a micro catheter
- Provides super-selective access
- A PTFE cover
- Achieves rapid occlusion[1]

CONCERTO™ detachable coil system

- Soft coil with nylon or PGLA[2]
- Provides fast occlusion compared to bare platinum coils[2]
- Higher rate of thrombin production when compared to bare coils[1]
- Rapid detachment[2]
- Fully repositionable[2]

ONYX™ liquid embolic system

- Liquid embolic system dedicated for peripheral use[3]
- Wide range of viscosities[3]
- Available in 6 ml and 1.5 ml vials
- Available in lower tantalum formulation

Workshop Program

MONDAY 24 OCTOBER 2022

EMBOLISATION AND VESSEL PREPARATION WORKSHOP

$75.00 incl. GST if registering for the full ANZSVS conference.

$200.00 incl. GST if not attending the full ANZSVS conference.

The Embolisation and Vessel Preparation Workshop is a separate event from the main ANZSVS Conference and it requires an additional registration.

Registration includes attendance at the Workshop only, arrival tea and coffee, lunch and afternoon tea.

Registration can be completed online at: anzsvs.com

EMBOLISATION STATIONS

- Characteristics of coils, glues and other embolic agents and when to use them
- Treating AV malformations

Iliac Branch Endoprosthesis

PRESERVATION MATTERS — A.L.W.A.Y.S.

Internal iliac artery preservation is the recommended treatment[1,2] to sustain quality of life. When determining which preservation method is best, A. L. W. A. Y. S.[3,4] consider each patient's:

- **A** Activity level
- **L** Length
- **W** Width
- **A** Aortic Disease
- **Y** Young
- **S** Seal

Pre-treatment and five-year follow-up; first clinical use. Images courtesy of Brian Peterson, MD. St. Anthony's Medical Center; St. Louis, Missouri.

Morning Teas, Lunches and Afternoon Teas

All morning teas, lunches and afternoon teas (where applicable) will be served in the industry exhibition area in the Federation Ballroom, Hotel Grand Chancellor.

Special Dietary Requirements

Please note that the venue is responsible for all catering at the Conference. RACS and ANZSVS do not inspect or control food preparation areas or attempt to monitor ingredients used. You must contact the venue directly for all special dietary requirements during the event, irrespective of whether details have been provided to RACS and ANZSVS.

If RACS/ANZSVS requests information about your dietary requirements for a specific event RACS/ANZSVS will endeavour to forward the information provided to the venue (time permitting). RACS/ANZSVS will not retain information provided for future events, so you must verify your requirements for each event. Even if information is requested or provided, RACS/ANZSVS takes no responsibility for ensuring that the venue acknowledges your dietary requirements or that these requirements can be met. In all cases you must verify for yourself that your dietary requirements have been met and RACS/ANZSVS refutes any and all liability for any failure to adequately provide your special dietary requirements or any consequential damage resulting from such failure.

Speakers' Support

Signage will direct you to the speakers' support centre at the Hotel Grand Chancellor. It is essential that all speakers check-in at the speakers' support centre at your earliest convenience but no less than two (2) sessions prior to your presentation.

E-Posters

Scientific posters will be displayed on the Virtual Conference Platform for delegate viewing before, during, and after the Conference.
