Vascular Program

FRIDAY 21 OCTOBER

8:30am - 10:00am **VENOUS**

- 8:30am Welcome
Cathy Thoo (Hobart)
- 8:35am Welcome To Country
- 8:45am Pelvic Venous Disorders. Making sense of the new SVP classification
Steven Dubenic (Sydney)
- 8:53am Post thrombotic syndrome treatment. Can we offer anything beyond compression?
Iman Bayat (Melbourne)
- 9:01am Venous Stenting in young patients. What do we know. How do we consent?
Ramesh Tripathi (Brisbane)
- 9:09am Appropriate use criteria. Time to have Australian guidelines for the treatment of pelvic venous pathology. Consensus statement.
Laurencia Villalba (Wollongong)
- 9:17am Calf recurrence
Mark Malouf (Sydney)
- 9:25am Mixed venous pathology. Deciding what to treat and when.
Phillip Puckridge (Adelaide)
- 9:33am IVC and iliac vein stenting: workload planning
VA001 Ines Clement (Perth)
- 9:38am Cost-benefit analysis of endovenous VenaSeal™ closure versus open surgery for varicose veins surgery on public patients out of hospital during COVID
VA002 Ravi Vissapragada (Melbourne)
- 9:43am Morbid Obesity: A growing problem in Venous Leg Ulcers. A Cross Sectional Study of suitability for endovascular treatment.
VA003 Jana-Lee Moss (Perth)
- 9:48am Discussion

10:00am - 10:30am **MORNING TEA - FRIDAY** (Combined with: Nursing)

10:30am - 12:30pm **REFINEMENTS IN VASCULAR SURGERY**

- 10:30am Paediatric Vascular Surgery
Joseph Hockley (Perth)

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

- 10:38am Interesting open approaches
Roxanne Wu (Cairns)
- 10:46am Pitfalls and tips for ECMO access
David Evans (Sydney)
- 10:54am Complex access for TAVI
Thodur Vasudevan (Melbourne)
- 11:02am ALIF exposures explained. Guide to avoid complications
Matthew Claydon (Melbourne)
- 11:10am Predicting personalised graft thrombotic risk to guide thromboprophylaxis therapy
Anahita Dua (Boston, USA)
- 11:18am Establishing a Diagnostic Framework for the Patient Presenting with Nutcracker Syndrome.
VA004 Domenico Nastasi (Gold Coast)
- 11:23am Nutcracker Syndrome. Operative techniques
Andrew Lennox (Sydney)
- 11:31am Outcome of Non-Reinforced PTFE Grafts for IVC Reconstruction in Sarcoma Surgery
VA005 Bijit Munshi (Perth)
- 11:36am Near Infrared Spectroscopy (NIRS) for assessment of diabetic foot perfusion and associated wound outcomes
VA006 Bijit Munshi (Perth)
- 11:41am Should patients with metastatic solid organ cancer undergo prophylactic vascular surgery - a review for vascular surgeons.
VA007 Stuart Walker (Hobart)
- 11:46am Comprehensive geriatric assessment in older vascular surgical inpatients improves prescribing practices
VA008 Sophie James (Sydney)
- 11:51am Factors affecting local complications of upper limb access for endovascular procedures: a single-centre experience.
VA009 Suhanya Seimon (Adelaide)
- 11:56am Can You Please Come to Theatre Now? - A retrospective review of emergent intra-operative vascular assistance in a tertiary centre
VA010 Ishan Naik (Auckland)
- 12:01pm Discussion

12:30pm - 1:30pm **LUNCH – FRIDAY**

12:30pm - 1:30pm **THE ANZSVS CPD AND AUDIT COMMITTEE MEETING**

12:45pm - 1:15pm

LUNCHTIME SYMPOSIUM - HOW TO MAXIMISE SEAL IN CHALLENGING ANATOMIES WITH THE GORE® EXCLUDER® DEVICE FAMILY

Sponsored by Gore & Associates

12:45pm

A Dutch experience
Jan Heyligers (Tilburg, The Netherlands)

1:00pm

An American experience
Sukgu Han (Los Angeles, USA)

1:30pm - 3:00pm

PERIPHERAL ARTERIAL DISEASE

1:30pm

Diabetic Feet Australia
Byron Perrin and Lyndsey Wright (Launceston)

1:38pm

The bacteriology and incidence of Staphylococcus aureus Small Colony Variants in patients with diabetic foot ulcers and infection.

VA011

matipaishe mashayamombe (Adelaide)

1:43pm

Surgical infection risk assessment in peripheral arterial disease
Anahita Dua (Boston, USA)

1:51pm

Innovative solutions to complex re-do CLI Procedures
Shannon Thomas (Sydney)

1:59pm

Improving patient outcomes with tibial artery stenting in BTK
Shannon Thomas (Sydney)

2:07pm

Preoperative sciatic nerve block vs post-amputation surgeon-placed perineural catheter for prevention of phantom limb pain in below knee amputations: a randomised controlled trial

VA012

William Xu (Auckland)

2:12pm

The role of diabetes in the presentation and management of non-traumatic lower limb ischemia in Australia and New Zealand from 11-year AVA data

VA013

Albert Kota (Adelaide)

2:17pm

Deep venous arterialisation
Anahita Dua (Boston, USA)

2:25pm

Pedal arch patency in predicting outcomes of ischaemic diabetic foot ulcers

VA014

Limi Lee (Melbourne)

2:30pm

Combination Directional Atherectomy and DCB angioplasty is effective for Femoropopliteal In-stent Restenosis

VA015

Kiraati Patel (Sydney)

2:35pm

Fast-track Angiojet Thrombolysis Protocol in Acute Lower Limb Ischaemia: A Single Centre Experience

Raeed Deen (Wollongong)

2:40pm

Discussion

3:00pm - 3:30pm

AFTERNOON TEA - FRIDAY

3:30pm - 5:30pm

AAA

- 3:30pm Incidence and Outcomes of Abdominal Aortic Aneurysm Repair in Aotearoa New Zealand from 2001-2021
VA017 Sinead Gormley (Hamilton)
- 3:35pm Long Term Outcomes of Open vs Endovascular Aneurysm Repair in Aotearoa New Zealand
VA018 Sinead Gormley (Hamilton)
- 3:40pm Endoanchors
Ross Milner (Chicago, USA)
- 3:48pm Association between aortic peak wall stress and rupture index with abdominal aortic aneurysm related events
VA019 Tejas Singh (Townsville)
- 3:53pm Reducing the Rate of Major Cardiovascular events in people with Abdominal Aortic Aneurysms: Is Cholesterol the Cure?
VA020 Domenico Nastasi (Gold Coast)
- 3:58pm Challenging Infrarenal Aortic Necks. What are our options?
Jan Heyligers (Tilburg, The Netherlands)
- 4:06pm Transcaval techniques for type 2 endoleaks
Ramesh Velu (Townsville)
- 4:14pm Iliac Preservation
Jan Heyligers (Tilburg, The Netherlands)
- 4:22pm IBE Registry
Joseph Hockley (Perth)
- 4:30pm Open Thoracoabdominal repair experience. How it fits in with modern day practice
Timothy Wagner (Melbourne)
- 4:38pm A retrospective review of safety and suitability of pre-operative CT angiogram in ruptured abdominal aortic aneurysms
VA021 Bryan McManus (Sydney)
- 4:43pm Endovascular Repair of Mycotic Aorto-iliac aneurysms: A review and clinical outcome analysis
Naomi Anning (Newcastle)
- 4:48pm Trapdoor aortic endarterectomy: a forgotten operation with modern relevance
VA022 Lakmali Anthony (Templestowe Lower)
- 4:53pm Impact of COVID-19 on patients scheduled for aortic surgery
VA023 Joel Ding (Melbourne)
- 4:58pm A retrospective audit of surveillance imaging of visceral aneurysms
VA024 Ali Sarfarazi (Auckland)
- 5:03pm Arterial Aneurysms: A big problem with missed opportunities
VA025 Madeleine Hallewell (Whanganui)
- 5:08pm Discussion

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

5:30pm - 6:30pm **WELCOME RECEPTION (TICKETED EVENT)**
Federation Ballroom, Hotel Grand Chancellor, Hobart

7:00pm - 10:30pm **TRAINEES DINNER (TICKETED EVENT)**
La Sardina Loca, 100 Elizabeth Street, Hobart

SATURDAY 22 OCTOBER

7:00am - 8:20am **WOMEN IN VASCULAR SURGERY BREAKFAST SESSION (TICKETED EVENT)**

(TBC) Does the sex of the operator influence outcomes - analysis of the AVA data
Stuart Walker (Hobart) and Mary Self (Hobart)

(TBC) "Something Inspirational"
Anahita Dua (Boston, USA)

(TBC) "Something Inspirational"
Cathy Thoo (Hobart)

8:30am - 12:30pm **MORNING WELLNESS ACTIVITIES**

The Organising Committee has reserved the first 2 sessions after the Women in Vascular Surgery Breakfast on Saturday morning of the conference free for you to explore all that Hobart has to offer.

You can join one of the planned activities below, or set out to explore Hobart yourself before returning to the Hotel Grand Chancellor for lunch at 12:30 pm

The Organising Committee has scheduled the below activities, registration is required.

- Group Mountain Biking
- Group Walk: Pipeline Track
- Group Walk: The Myrtle Gull Trail

12:30pm - 1:30pm **LUNCH - SATURDAY**

12:45pm - 1:15pm **LUNCHTIME SYMPOSIUM - TYPE II ENDOLEAK TREATMENT: AN OVERVIEW OF THE TRANSARTERIAL AND TRANSCAVAL ACCESS TECHNIQUES**

Sponsored by Medtronic

12:45pm Transarterial access for Endoleak treatment overview
Arne Schwindt (Munster, Germany)

12:55pm Transcaval access for Endoleak treatment overview
Ramesh Velu (Townsville)

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

1:05pm	Discussion
1:30pm - 3:00pm	RESILIENCE AND RESPECT IN VASCULAR SURGERY
1:30pm	Research ANZJS Sarah Joy Aitken (Sydney)
1:38pm	Challenges and Joy of Regional Vascular Surgery Roxanne Wu (Cairns)
1:46pm VA026	Regional case-mix variation of vascular surgery trainees across Australia and New Zealand Daniel Thompson (Melbourne)
1:51pm VA027	Risk of stroke in relation to presentations of asymptomatic carotid artery stenosis Dylan Morris (Melbourne)
1:56pm	Should Carotid Interventions be offered to prevent/reverse cognitive impairment in patients with asymptomatic carotid stenosis: The 2023 ESVS Carotid Guidelines. Ross Naylor (Leicester, UK)
2:04pm VA028	Is Shunting Necessary in Patients with Contralateral Carotid Occlusion undergoing Carotid Endarterectomy? Oliver Bernau (Auckland)
2:09pm VA029	Readiness for TCAR - lessons from the Australasian Vascular Audit Joel Ding (Melbourne)
2:14pm	Management of CABG patients with concurrent carotid disease: The 2023 ESVS carotid guidelines Ross Naylor (Leicester, UK)
2:22pm VA030	Natural History of the Blunt Vertebral Artery Dissection: A Retrospective Review at the Princess Alexandra Hospital Vidushi Lal (Brisbane)
2:27pm VA031	COVID related acute arterial thrombosis - The Indian experience Vimalin Samuel (Vellore, India)
2:32pm VA032	Popliteal Artery Injuries in Western Australia: A 25-Year History Ranesh Palan (Perth)
2:37pm VA033	A Five-Year Audit of Vascular Trauma Surgery at The Alfred Hospital Ashton Arthur (Melbourne)
2:42pm VA034	Rural general surgeons managing vascular emergencies: are we prepared? Jessica Paynter (Bendigo)
2:47pm	A 12 year retrospective review of ruptured abdominal aortic aneurysm repairs by a rural general surgery centre. Jessica Paynter (Bendigo)
2:52pm	Discussion
3:00pm - 3:30pm	AFTERNOON TEA - SATURDAY

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

3:30pm - 5:30pm

AORTIC REFINEMENTS

- :30pm ChEVAR and FEVARCh
Ross Milner (Chicago, USA)
- 3:38pm The role of In-Situ FEVAR for ruptured TAAA and SRAAA at a regional aortic center
Sukgu Han (Los Angeles, USA)
- 3:46pm Aortic Branch Endografts
Anastasia Dean (Melbourne)
- 3:54pm Tips and tricks for transcaval TEVAR
Ross Milner (Chicago, USA)
- 4:02pm Analysis of Genetic predisposition in Acute Aortic Syndrome in New Zealand
Cheyaanthan Haran (Hamilton)
- 4:07pm Incidence and mortality of aortic dissection in Aotearoa New Zealand: A 20-year snapshot
Eric Lim (Christchurch)
VA035
- 4:12pm Spinal Cord Revascularisation during Complex Endovascular Aortic Repairs
Sukgu Han (Los Angeles, USA)
- 4:20pm Blunt Aortic Injury - What Do We Know and How Urgent is it?!
Benjamin Starnes (Seattle, USA)
- 4:28pm A Retrospective Review of Endovascular Management of Blunt Thoracic Aortic Injury in Australia and Aotearoa New Zealand
Vidushi Lal (Brisbane)
VA036
- 4:33pm Early results from a retrospective Type B aortic dissection registry
Vivian Lee (Sydney)
VA037
- 4:38pm Optimal timing of TEVAR for type B aortic dissections: a systematic review and meta-analysis
Erin Saricilar (Sydney)
VA038
- 4:43pm Epidemiology and outcomes of acute aortic dissection in Aotearoa New Zealand: results from an 11-year national population-based study
William Xu (Auckland)
VA039
- 4:48pm Zone 0 Stenting & Total Endovascular Arch Repair in Patients Turned Down for Open Surgical Repair
Sinead Gormley (Hamilton)
VA040
- 4:53pm Aortic Size Index as a Predictor of Ruptured Abdominal Aortic Aneurysm
Calum Barton (UK)
VA041
- 4:58pm Initial Endovascular Repair And Initial Open Surgery Result In Similar Survival In Patients With Secondary Aorto-Enteric Fistulae
Anantha Narayanan (Wellington)
VA042
- 5:03pm E-nside TAAA Jotec
Phillip Puckridge (Adelaide)
- 5:11pm Aortic dissections
Raffi Qasabian (Sydney)
- 5:19pm Discussion

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

SUNDAY 23 OCTOBER

7:50am - 8:20am **BREAKFAST SYMPOSIUM - BEST PRACTICES IN TREATING PATHOLOGIES OF THE THORACIC AORTA**

Sponsored by Cook Medical

8:30am - 10:00am **ANZSVS LEADERSHIP FORUM**

Chair(s): **Peter Subramaniam (Adelaide)**

8:30am The life and Leadership of D.G. "Scotty" McLeish - Creator of the Section of Vascular Surgery

Noel Atkinson (Melbourne)

8:42am Yesterday, today and tomorrow - A brief history of thoracoabdominal surgery in Australia. The technical expertise of Stanley Crawford

Geoffrey Cox (Melbourne)

8:54am Why I am who I am - the influences of Peter Bell (and others) on a lifelong passion for the carotid artery

Ross Naylor (Leicester, UK)

9:06am Beyond the hybrid suite. Lessons from the life of Roy Greenberg

Tara Mastracci (London, UK)

9:18am The medical student, the vascular surgeon and the Professor of learning. The development of ANZSVS - Lessons from the life of Phil Walker.

Douglas Cavaye (Brisbane)

9:30am The ANZSVS Presidents Lecture 2022 - You are not special. Mentoring and being mentored. Life lessons in leadership from a 61 Whiskey

Benjamin Starnes (Seattle, USA)

9:50am Discussion

10:00am - 10:30am **MORNING TEA - SUNDAY**

10:30am - 12:30pm **AVF/IMAGING**

10:30am Modified Seldinger PD Technic
John Swinnen (Sydney)

10:38am The transradial approach for endovascular intervention of problem arteriovenous fistula; the Westmead experience

VA043 James Colbourne (Sydney)

10:43am Tomographic ultrasound robots: The future of Vascular Lab Imaging
Shannon Thomas (Sydney)

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

- 10:51am Long term results of juxtaanastomotic stenting
Shannon Thomas (Sydney)
- 10:59am Investigating Resistance Indices in renal dialysis arteriovenous fistulae (AVF) to determine normal and abnormal values.
VA044 Donna Oomens (Sydney)
- 11:04am Arteriovenous fistula formation with adjuvant endovascular maturation
VA045 Thomas Warburton (Sydney)
- 11:09am WRAPSODYT Cell Impermeable Endoprosthesis for treatment of recalcitrant venous outflow lesions in arteriovenous dialysis access circuits. Initial experience and up to 2-years follow up.
VA046 Rohan Arasu (Perth)
- 11:14am Natural History of Renal artery stenosis: Identifying those at risk. A review of current literature and future directions
Naomi Anning (Newcastle)
- 11:19am A review of the contemporary uses of inferior vena cava balloon occlusion
Cheyaanthan Haran (Hamilton)
- 11:24am Quality assurance in medical 3D-printing: a dimensional accuracy study of patient-specific 3D-printed vascular anatomical models
VA047 Christoph Meinert (Brisbane)
- 11:29am Ethnic disparities in computerised tomographic aortography use for diagnosing acute aortic syndrome
VA048 Shreya Bir
- 11:34am Iodine Mapping with Subtraction CT for Differentiation of Endoleak
VA049 Vivian Lee (Sydney)
- 11:39am Endovascular management of the arterially placed central venous lines - a single center retrospective review
VA050 Jhanvi Dholakia (Wellington)
- 11:44am The correlation between different ultrasound planes and computed tomography measures of abdominal aortic aneurysms
VA051 Brigid Geraldine Hill (Dunedin)
- 11:49am Discussion

12:30pm - 1:30pm **LUNCH – SUNDAY**

12:30pm - 1:30pm **THE BOARD OF VASCULAR SURGERY - SUPERVISORS AND TRAINERS MEETING**

12:45pm - 1:15pm **LUNCHTIME SYMPOSIUM**

Sponsored by BD

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

1:30pm - 3:00pm

CHALLENGE THE EXPERTS

'Part A: Sukgu Han (Los Angeles, USA), Ross Naylor (Leicester, UK), Jenny Chambers (Port Macquarie)'

1:31pm Battle of the Bulge
Kareem Osman (Hamilton)

1:42pm Wired for...silence
Omar Aziz (Sydney)

1:53pm Great Achievement !
Janaka Lovell (Hobart)

2:04pm A Matter of Timing
Joel Ding (Melbourne)

Part B: Arne Schwindt (Munster, Germany), Benjamin Starnes (Seattle, USA), Ross Milner (Chicago, USA), Roxanne Wu (Cairns)

2:16pm What Next?
Samuel Hawthorne (Melbourne)

2:27pm If at first...
Jana-Lee Moss (Perth)

2:38pm True and False
Daniel Zhang (Sydney)

2:49pm Double Crossed
Thomas Warburton (Sydney)

3:00pm - 3:30pm

AFTERNOON TEA - SUNDAY

3:30pm - 5:30pm

COMBINED ESVS AND ANZSVS SESSION

3:30pm Does treatment reality in international registries on carotid artery surgery match the expectations of randomised trials? Lessons learned from the VASCUNET
Maarit Venermo

3:40pm International experience in TEVAR practice: Lessons learned from the largest database on endovascular thoracic aortic repair
Kevin Mani

3:50pm The ESVS VASCUNExplants project: utility of an international collaboration to find answers to uncommon surgical complications
Cristina Lopez Espada (Granada, Spain)

4:00pm Using an international registry collaboration for high-risk medical device evaluation: The VASCUNET & ICVR EVAR for ruptured AAA repair project
Kevin Mani (Uppsala, Sweden)

4:10pm Opportunities and limitations of artificial intelligence in vascular surgery: How can registries improve patient safety?

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

Fabien Lareyre

- 4:20pm International registry collaborations to detect unwarranted variation in vascular care: The New Zealand experience
Manar Khashram (Hamilton)
- 4:30pm Do we need a "European Health Data Space for people and science" - Theory and practice concerning research and regulation
Christian Behrendt (Hamburg, Germany)
- 4:40pm Quality improvement with registries on patients with peripheral arterial disease and diabetes: A global health problem in the shade of the heart and brain
Birgitta Sigvant
- 4:50pm Inequalities in vascular care in European countries: How have the reports on amputation practice and PAD practice affected our practice?
Ana-Maria Vrancianu
- 5:00pm COVID-19 and its impact on vascular care: Lessons learned from real world data and future implications
Arun Pherwani
- 5:10pm Discussion

5:30pm - 6:30pm THE ANZSVS ANNUAL GENERAL MEETING

7:00pm - 10:30pm CONFERENCE DINNER (TICKETED EVENT)
AURA Restaurant, Level 12/110 Liverpool Street, Hobart

Nursing Program

FRIDAY 21 OCTOBER

The workshop afternoon scheduled for the ANZSVN attendees will be focused on the themes of Resilience, Respect, and Refinement and support attendees to Refine skills and promote Resilience and Respect for clinicians providing vascular assessment, intervention, and care.

12:30pm - 1:30pm LUNCH - FRIDAY

1:30pm - 3:00pm WORKSHOP 1

Times & Rotations TBC

Refining Assessment skills
Physical Assessment skills
Dopplers
Sonography

3:00pm - 3:30pm AFTERNOON TEA - FRIDAY

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

3:30pm - 4:15pm **CONTEMPORARY PAIN WORKSHOP**

3:30pm Science into Practice
Michelle Nicholson (Launceston)

4:20pm - 5:20pm **WOUND DETECTIVES - PROBLEM BASED LEARNING APPROACH WORKSHOP**

4:20pm Become a Wound Detective: Understanding Lower Limb Vascular Wounds
Fran Henshaw

5:30pm - 6:30pm **WELCOME RECEPTION (TICKETED EVENT)** *Federation Ballroom, Hotel Grand Chancellor, Hobart*

SATURDAY 22 OCTOBER

7:00am - 8:20am **WOMEN IN VASCULAR SURGERY BREAKFAST SESSION (TICKETED EVENT)** (Combined with: Vascular)

(TBC) Does the sex of the operator influence outcomes - analysis of the AVA data
Stuart Walker (Hobart) and Mary Self (Hobart)

(TBC) "Something Inspirational"
Anahita Dua (Boston, USA)

(TBC) "Something Inspirational"
Cathy Thoo (Hobart)

8:30am - 12:30pm **MORNING WELLNESS ACTIVITIES**

The Organising Committee has reserved the first 2 sessions after the Women in Vascular Surgery Breakfast on Saturday morning of the conference free for you to explore all that Hobart has to offer.

You can join one of the planned activities below or set out to explore Hobart yourself before returning to the Hotel Grand Chancellor for lunch at 12:30 pm.

The Organising Committee has scheduled the below activities, registration is required.

- Group Mountain Biking
- Group Walk: Pipeline Track
- Group Walk: The Myrtle Gull Trail

REFINEMENT OF CLINICAL CARE - PAD/PV/DFD

1:30pm

Welcome

Juliet Scott (Launceston)

1:35pm

Endovascular techniques/treatment regimens Research/ outcomes - PAD

Anahita Dua (Boston, USA)

1:55pm

Managing Vasculogenic Erectile Dysfunction and Peripheral Artery Disease

NU001

M. Eileen Walsh (Toledo, USA)

2:05pm

Factors associated with morbidity, mortality, and ambulation following major lower limb amputation secondary to dysvascular foot disease

NU002

Eunjong Han (Auckland)

2:15pm

Minor amputation after revascularization improves outcome of ischaemic diabetic foot ulcers

NU003

Limi Lee (Melbourne)

2:25pm

Discussion

3:00pm - 3:30pm

AFTERNOON TEA - SATURDAY

3:30pm - 5:30pm

REFINEMENT OF CLINICAL CARE

3:30pm

Pain a Different View- 5 domains Trauma Informed goal setting

Michelle Nicholson (Launceston)

4:15pm

A little bit of Magic for Pain Management during Wound Bed Preparation

NU005

Frances Horner (Nelson)

4:25pm

Overcoming barriers to wound healing in a neuro-ischaemic diabetic foot cohort using a novel bilayer biodegradable synthetic matrix tissue scaffold

NU006

Frank Guerriero (Adelaide)

4:35pm

Fibro Adipose Vascular Anomaly (FAVA) - The Vascular Masquerader

NU007

Vimalin Samuel (Vellore, India)

4:45pm

Are We Utilising Wound Matrixes Effectively?

NU008

Karen Nixey (Hamilton)

4:55pm

Pilot Phase of a validation study of a Patient Reported Outcome Measure for Chronic Limb Threatening Ischaemia

NU009

Sue Monaro (Sydney)

5:05pm

Management of diabetes-related foot disease: Australian health care professionals' perceptions on cost and resource utilisation.

NU010

Lucy Stopher (Perth)

5:15pm

Discussion

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era

ANZSVS Conference 2022

21 – 24 October 2022 Hotel Grand Chancellor, Hobart, Australia

anzsvs.com

SUNDAY 23 OCTOBER

8:30am - 10:00am OPTIMISING RESILIENCE/RESPECT FOR MDT

8:30am Medical Optimisation/case studies
Harry Gibbs (Melbourne)

8:55am Presence through discourse in chronic limb threatening ischaemia and confronting the possibility of amputation
NU011 Sue Monaro (Sydney)

9:05am Practical assessments for prevention of Diabetic foot ulceration (DFU) and management of the high-risk foot in a multidisciplinary setting.
NU012 Lyndsey Wright (Launceston)

9:15am The Clinical Profile of People with Diabetic Foot Ulcers Undergoing Major Lower Limb Amputation
NU013 Hannah Twidale (Adelaide)

9:25am Diabetic foot disease: perception vs reality
NU014 Ayushica Saran (Melbourne)

9:35am Discussion

10:00am - 10:30am MORNING TEA - SUNDAY

10:30am - 11:30am REFINEMENT OF CLINICAL CARE - ENDOVASCULAR TECHNIQUES

10:30am Endovascular overview
Ross Milner (Chicago, USA)

10:50am Endovascular AAA repair: follow-up, complications and implications for nursing and inpatient care
NU015 Tom Palesy (Sydney)

11:00am Efficacy of trans-radial access for endovascular treatment of arterio-venous fistulas: A North Queensland experience.
NU016 Tejas Singh (Townsville)

11:10am Assessing the Growth Rate of Abdominal Aortic Aneurysms Greater than 5 cm
NU017 Sinead Gormley (Hamilton)

11:20am Discussion

11:30am - 12:30pm THE FUTURE OF VASCULAR NURSING

11:30am Setting the scene
tba

11:40am How did Vascular Surgical Nurses develop a positive adaption model of care to the COVID-19 Era?
NU018 Navelle Hosking-Gavin (Sydney)

Resilience, Respect, Refinement -

A Positive Adaption to the COVID-19 Era
