

CONNECTING THE DOTS
KNOWLEDGE BROKERING
SYMPOSIUM SESSION 1

WHAT?!

a graphic recording by
Eav Brennan on GADIGAL
COUNTRY

ACKNOWLEDGING COUNTRY

COREY TUTT - A PROUD KAMILAROI MAN
Songlines carry stories, technology, history, chemistry, science, culture

FIRST NATIONS
told
THE FIRST STORIES,

and are
THE FIRST SCIENTISTS

10000 years ago, crocodiles
were on Kamilaroi Country

We know this because of STORIES
sharing what's known
to explore what is NOT known
which brings HOPE

Deadly people do
DEADLY SCIENCE

WHAT IS DONE

Communication
making documents
workshops

Strategy
and
planning

Education

A circular arrangement of four dried orange slices, each with a white center and a brown outer ring, set against a light background.

WHAT IS CHALLENGING

no obvious
career path

BROAD
SPECTRUM

"furnishing data
with meaning"

A cluster of purple flowers with long, thin petals, partially enclosed by a black, intricate mesh-like structure.

KNOWLEDGE BROKERING

WITHIN THE ARC'S CLEX

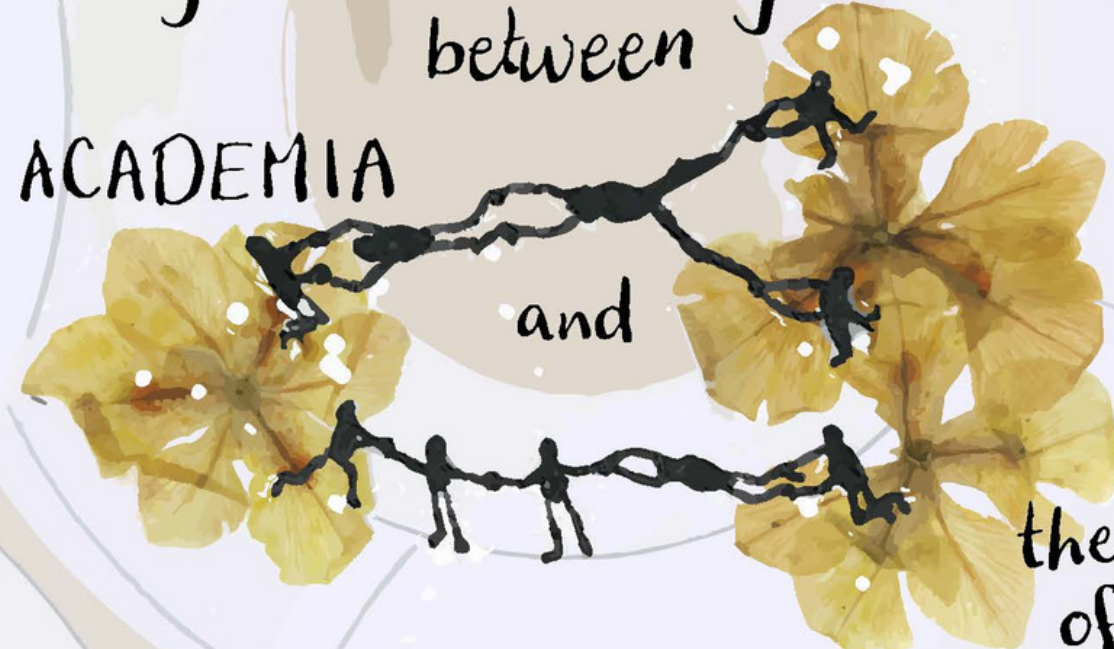

IAN MACADAM on Bedegal Country

Acting as the bridge
between

ACADEMIA

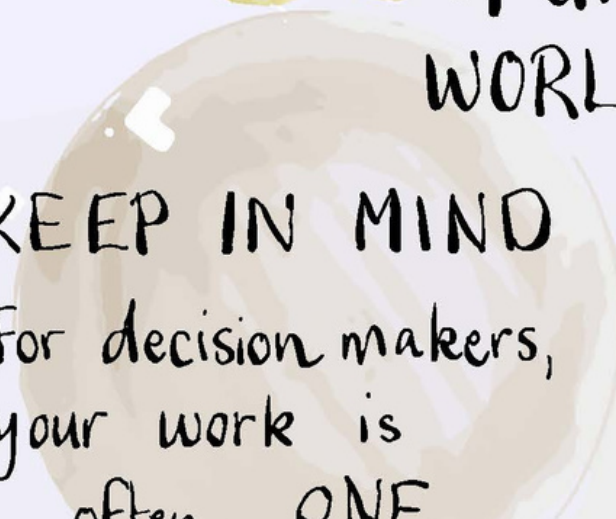

and

the rest
of the
WORLD

A black silhouette of a bridge with several figures walking across it, positioned between two yellow flowers.

KEEP IN MIND

For decision makers,
your work is
often ONE
consideration
of MANY

A light brown, circular shape with a slightly textured appearance, centered in the bottom right section.

THE CASE FOR A DISCIPLINE.

with GABRIELE BAMMER on
Ngunnawal & Ngambri Country

MAKING KNOWLEDGE
BROKERING
A DISCIPLINE

Formal development
of
concepts
methods
ideas

MANY COMMUNITIES
explore ways to navigate
COMPLEX
PROBLEMS

SHARING
Organising and uniting
building a COLLECTIVE VOICE
and a cohesive DISCIPLINE

i2S = integration and implementation
sciences

AN ECR PERSPECTIVE

with Sara Mynott on Songhees,
Esquimalt and WSÁNEĆ territory

Settled in between
research and policy
Facilitating collaboration
translation
- making sure research
is **RELEVANT** and **IMPACTFUL**

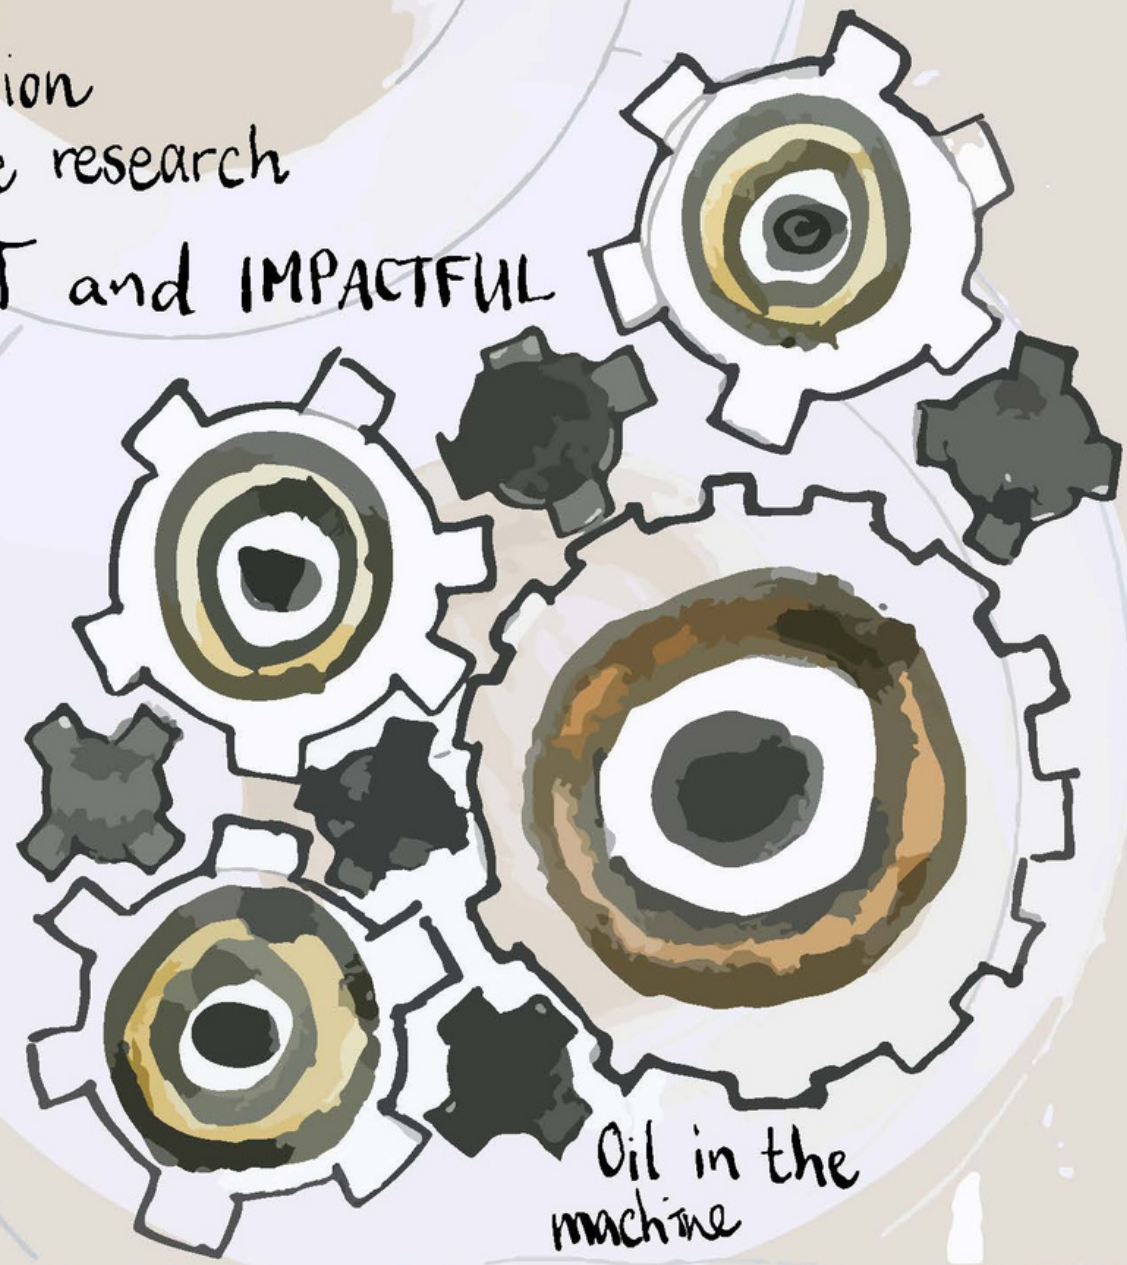

A MEANDERING PATH

between
academia

and
public
sector

Brexit and fisheries

Oil in the
machine

THE FUTURE IS PORRIDGE

with JACK AUTY

Newton stabbed himself in the eye

and discovered something new

That's not what modern science is like

SPECIALISE, THEN COLLABORATE

We become highly skilled in very particular areas ...breaking out of our own boxes can help discover something new

KEY POINTS FROM SESSION ONE

Knowledge Brokering is a process
to navigate **COMPLICATED** and
COMPLEX PROBLEMS

AS A JOB

Move between academia and industry,
policy, education

Master the **COLD EMAIL**
Find advocates and allies

IT'S A TEAM SPORT
Celebrate **DIVERSITY** as essential

IMPORTANT SKILLS/QUALITIES

Expectation management Listening
Curiosity Principled negotiation
Organisation Fore sight
