Gordon Keller

Geotechnical Engineer
Genesee Geotechnical/Meta-Meta

Mr. Keller is a licensed Civil and Geotechnical Engineer in California, with a BS in Civil Engineering from UCLA and MS in Geotechnical Engineering from University of California, Berkeley. He worked with the U.S. Forest Service for 40 years, retired, and now continues working as a private engineering consultant. Professional experience has included extensive work with all aspects of low-volume roads and environmental mitigations for roads. He is actively involved with the Transportation Research Board Low-Volume Roads and Geosynthetics Committees, the International Road Federation, as well as various other professional groups, development banks, and Universities.

He has conducted over 50 training courses on low-volume road engineering worldwide. He has published numerous papers, written several manuals, and currently is focused minimizing negative environmental impacts from roads and on road resilience, storm damage risk reduction, and adaptation of roads to climate change.
