GRSF
Global Road Safety Facility

UKaid
United Kingdom

The course was developed jointly by the ADB Transport Sector Group, GRSP and iRAP, and was designed to build capacity and technical knowledge relating to:

- Embedding evidence-based road safety interventions into transport projects
 - The development of ‘system-based’ road safety projects, including the key role of management and resource mobilisation.
-
- **Module 1: Road Safety Management – July 12 – August 5, 2021**
 - 2 webinars, 2 practical activity workshops & 1 assignment
 - Road safety lead agencies and strategies, data and technology enabling road safety management, coordinated approaches to road safety , the safe system approach
 - **Module 2: Safer Road Users – September 27 – October 21, 2021**
 - 2 webinars, 2 practical activity workshops & 1 assignment
 - Utilization of data to understand risks, vulnerable road users, enforcement and strategic communications
