

# Closing Panel

 **CRPP PARTNERSHIP**  
FORUM 2023

## Where can CRPP add value

- **Connect the solutions.** Connect adaptation priorities identified in National Adaptation Plans with priorities identified in poverty reduction strategies, gender strategies and sector strategies in support of pro-poor resilient development.
- **Catalyze new programmatic approaches:** Support countries in moving from planning to implementation of local adaptation actions through developing (and financing) new nationwide local resilience programs that identifies communities as agents of change, promote convergence of solutions across scale and sectors, and adopts innovative financing with a focus on outcomes.
- **Target policy reforms:** Focus on policy reforms that can unlock opportunities/financing, addresses barriers and aligns incentive structures for implementing gender-responsive local adaptation solutions.
- **Strengthen enabling environment:** Strengthen key enabling factors for institutionalizing adaptation solutions at local level through active leadership of local government and innovative partnerships.
- **Support pilots for testing new ideas:** Support demonstration of innovative women-led adaptation solutions/approaches on the ground that allows testing new ideas and learning
