SEASON 2, SESSION 3 – WEDNESDAY, 28 April at 1400 – 1530 PHT (Manila time)
Building Resilience of the Power System in the Low Carbon Transition

Speakers:

Xiaoming Jin

Former Chief Technical Expert
Electrical Power Research Institute
China Southern Power Grid

Xiaoming Jin is the former Chief Technical Expert for Electrical Power Research Institute of China Southern Power Grid. He is working as senior advisor for Guangdong Electrical Power Design Institute CO. LTD and member of Power System Committee of China Society for Electrical Engineering (CSEE), vice chairman of subcommittee of Power System Operation, Planning and Economics Committee of IEEE PES China Satellite Technical Council and member of China Renewable Energy Society (CRES). He is the fellow of CSEE.

Xiaoming Jin has more than 37 years' experience in power sector. He has profound knowledge of energy and power system planning, power grid technologies, HVDC transmission, power system simulation and operation, renewable energy integration etc.
