

## Alexandra Spernol

Consultant

**Mrs. Spernol** holds a Master of Science in Civil Engineering and has over 30 years of international post-graduate experience in the transport sector, out of which over 20 years in the design, development and implementation of road asset management strategies and road maintenance plans. She has led the definition of various long-term forecasts of road maintenance needs, the introduction and implementation of OPBRC, PBMC and SLAs, and the drafting of road network management and road safety strategies in more than twenty countries.

As a senior highway engineer, Mrs. Spernol has been engaged in project preparation and implementation of road projects reaching from rural roads projects to major PPP developments in developing, transition, and EU-enlargement countries, taking different senior roles such as Road Maintenance Expert, Performance Based Maintenance Specialist, Design Engineer, HDM-4 Expert, Team Leader and Project Manager.

Her Experience covers a variety of regions, including Eastern Europe, Central Asia, South-East Asia, Central and Latin America, as well as North and sub-Saharan Africa.
