Filippo Giustozzi

Professor
RMIT University

Professor Filippo Giustozzi is an accomplished expert specialising in road and airport infrastructure. He earned his second Ph.D. from Virginia Tech University (USA) and served as the Chair of the Technical Committee on Sustainable and Resilient Pavements at the Transportation Research Board of the National Academies of Sciences and Engineering in the USA from 2017 to 2022.

Since 2008, he has been actively involved in numerous significant road and airport construction projects worldwide. Professor Giustozzi engages in collaborative efforts with national and international government bodies, local governments, industry, and product stewardship associations. These collaborations aim to deliver projects covering a wide range of topics, primarily focusing on the sustainability of transport infrastructure and the use of recycled materials for road and airport applications.
