

drink the air

the future of sustainable water

the global water challenge

our purpose

SUSTAINABLE WATER

CARING FOR COMMUNITIES

SAVING THE PLANET

Veragon is a technology and services business that aims to do good in the world.

We work with organisations that care and are trusted by the world's most respected non-profit partners to help deliver solutions that help communities build a more sustainable way of living.

Veragon – what we do

We produce a **sustainable source of mineralised drinking water from the air** without any impact on the environment. The water is:

- **Mineralised and safe**
Minerals are added in the process to increase the health benefits
- **Globally compliant**
Fully compliant to WHO Drinking Water Standards
- **Constantly available**
Doesn't need any source of water - available 365 days of the year
- **Trusted and reliable**
Repeat solution providers to the UN and NATO

how it is created

SUSTAINABLE DEVELOPMENT GOALS

veragon delivering our purpose

Dr Alessio Lucattelli

participates in aid mission after Haiti earthquake, sees effects of lack of clean water

Veragon is founded

by Dr Lucatelli to address the problem

First client

Veragon unit sold to Italian Navy

Typhoon hits Philippines

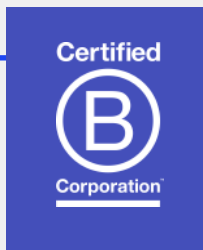

To help, Veragon unit sold to World Food Program, a UN agency

Indonesia

Indonesia Ministry of Village supports pilot program for community-based water programs

UN Global Services Centre

5 year contract for the supply of AWG Units

Certified B Corporations are businesses that meet the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose. B Corps are accelerating a global culture shift to redefine success in business and build a more inclusive and sustainable economy.

our commitment to SUSTAINABLE DEVELOPMENT GOALS

- Adopted UN Environmental, Social and Governmental Policy 2014
- UN Global Compact approved
- Veragon Sustainable Memorandum 2020
- Application For Environmental Management System ISO 2020

social impact

Our business is grounded on five foundational social impact KPI's that address basic community and environmental sustainability UN SDG goals:

#3	#5	#6	#7	#11	#12	#13	#14	#15
		<p>Clean Water Reach providing clean and safe drinking water to the community</p>	<p>Local Employment Creation management / maintenance of the units</p>	<p>Community Development Funding % of all revenue goes to a Community Fund</p>	<p>Plastic Reduction elimination of waste and use of recyclable containers for water</p>	<p>Carbon Footprint solutions can be focused on solar creates low cost independent infrastructure "local content" – India is a leading Solar Provider</p>		

health impact

An important consideration in the provision of **Veragon mineralised drinking water** are the clear benefits that they bring to a community:

1. Provides hydration

60% of the human body comprises water - adequate hydration is essential to life.

2. Prevention of disease

+60% of all deaths due is to diarrhoea in low- and middle income countries are attributable to inadequate drinking-water.

3. Strengthens the immune system

Mineralisation of drinking water provides a means of strengthening the immune system helping to protect against disease.

4. Helps reduces

Mineralised drinking water can reduce the impact of stunting which impacts 35% of Asian children under the age of five.

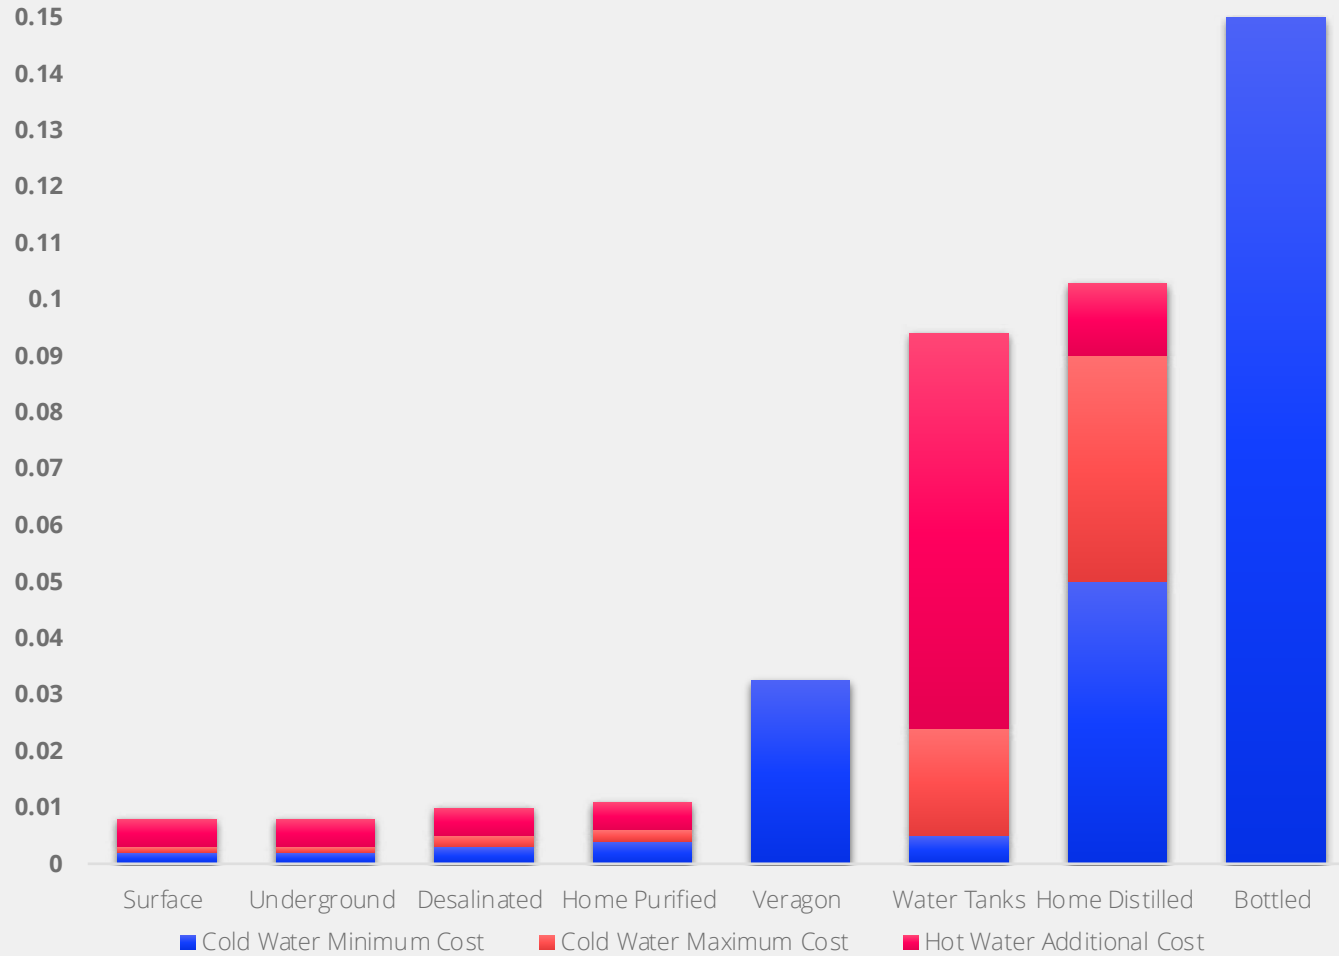

5. Reduces kidney disease

Long-term health costs identified in veterans by Military exposed to continuous use of non-mineralised water.
