ABOUT THE REPORT

The OECD/UCLG World Observatory on Subnational Government Finance and Investment (SNG-WOFI) initiative is the world's leading source of internationally comparable data and analysis on multi-level governance and subnational finance frameworks. The 2022 edition includes data from 135 countries, covering almost 90% of the world surface area, 93% of the world population and 94% of global GDP.

ABOUT THE REPORT

The City Enabling Environment (CEE) Assessment is an attempt at understanding which “enablers” and “actors” underpin the transformation of 21st-century cities and thereby attenuate, drive or simply shape the human, social and environmental challenges playing out in our cities today.
