

Innovative Tax Administration A Strategic Workshop

27-29 March 2023 | Tokyo, Japan

So-young Yoon

**Deputy Director, ICT Management Division, National Tax Service,
Republic of Korea**

Ms. Yoon has worked for the IRS (National Tax Service, Republic of Korea) for 26 years. She has worked on Program Development, Project Management, Project Budget Management, and Computerized Equipment Management.

She established a new system from 2010 to 2017. Even though the deployment process was difficult, the process of overcoming difficulties was very valid. It gives her pride that NTIS (Neo Tax Integrated System, Republic of Korea IRS) provides various national tax administration services and is a key service sought by majority of the people.
