South Australia's  
**Industry Climate  
Change Conference**

20 - 21 April | Adelaide Convention Centre

**Sponsorship Prospectus**

## Martin Haese

Chair, Premier's Climate Change Council

“The South Australian Government has state-wide goals of reducing net greenhouse gas emissions by more than 50% by 2030 and achieving net zero emission by 2050.”

As the Chair of the Premier's Climate Change Council – the South Australian Government's independent advisory council on mitigating and adapting to climate change, I invite you to participate in South Australia's inaugural Industry Climate Change Conference.

The Industry Climate Change Conference will be held in Adelaide on Thursday 20 and Friday 21 April 2023.

The South Australian Government has state-wide goals of reducing net greenhouse gas emissions by more than 50% by 2030 and achieving net zero emission by 2050. There is also a target to achieve 100% renewable energy generation by 2030, which is well on the way with recent figures showing this is currently sitting at 68%.

In recognition that action is required by all sectors to achieve these targets, the state government is hosting an Industry Climate Change Conference to bring together industry, business and government representatives from across South Australia to further reduce emissions and set the path to a net zero future.

# About the Conference

The inaugural Industry Climate Change Conference will build on South Australia's global reputation as a climate change leader by continuing to move the state towards a low emissions future.

By working together across different sectors, South Australia can reap the benefits of the new emerging green economy. Conference sponsors will showcase solutions for climate action, to help industry and businesses across the state to reduce their emissions and benefit from the transition to net zero.

## Conference Venue

The Adelaide Convention Centre is a centre transformed - The recent expansion has seen it emerge as Australia's most flexible and technologically advanced convention centre.

A striking landmark on Adelaide's Riverbank, the Centre comprises three independent yet seamlessly integrated buildings: East, Central and West.

Each building takes advantage of their prime positioning on the River Torrens, providing plenty of natural light and panoramic views of the river to deliver a heightened sense of destination.

Close proximity to the entertainment, cultural and sport precinct, the Centre is a short walk to international and boutique hotels and accommodation. Public transport, the Adelaide Railway Station and a taxi rank are on our doorstep. The international airport is just seven kilometres from the Centre, making a quick and economic taxi ride.
