

Can you trust the voice within? Lived Experience: Schizophrenia and Access to Oral Health Care

Dr Roisin McGrath

Dr Roisin McGrath will co-present this session with Sandy, who has been living with Schizophrenia and all its moods for over 30 years. Together they will talk about what it's like to live with a severe mental illness, and the barriers that people with psychotic disorders face in accessing oral health care. Sandy is a former inmate of Larundel Psychiatric Institution, who became an advocate for her 'mad' comrades and is now a poet of distinction; she will be available to talk with you on the DHAA booth during afternoon tea.
