

## Spectrum of digital intermediation

*Imitative*

*Innovative*

*Disruptive*

**Uses of ICT tools**

**Internet-based**

**Automated/AI**

'Devices' in court  
& practice (iPads,  
mobiles)  
[Personal, LAN]

Access to legal information

Algorithm-  
driven

e-documents  
e-discovery

Migrating practice  
online:

- Skype, Zoom etc
- synchronous, asynchronous

App-based access

Emergence of online  
Courts, Tribunals

Potential for  
automation;  
predictive judgment

"Distributed" access and decision-making:

*Governing "code"?*  
Legal

Professional

Binary
