<i>Maximum attendees for all workshops is 30</i>	<p>This workshop is an introduction to working with men using family violence and is a foundational training experience for professionals to learn the ways in which men’s family violence is defined and understood, skills in identifying key risk indicators, and referral pathways.</p> <p>This training aims to support the learning and development of practitioner skills in engaging with men about their use of abuse and violence.</p> <p style="text-align: right;"><u>Trainers:</u> Kate Bishop <i>No to Violence</i></p>	<p>Readily available and aggressively marketed online, exposure to hardcore pornography is now mainstream. Arguably the most prominent form of sexuality education, pornography is shaping young people’s sexual understandings and experiences with serious implications for their capacity to navigate relationships and sexuality that are safe, respectful and consenting. Pornography has become a violence prevention issue we can’t afford to ignore.</p> <ul style="list-style-type: none"> • How pornography has become mainstream (including information about young people’s exposure and access) • The nature of contemporary pornography (including its common depictions of gendered aggression) 	<p>The Southern Cross Model was designed to encourage mainstream agencies to deliver more culturally competent services to First Nation men who use family violence against women and children. The content and delivery of the model is through a First Nation lens providing a two - way learning platform for both participants and trainers.</p> <p>The Southern Cross for First Nation people is a navigator and a map for all parts of their culture and lands. The Emu Dreaming Story and his relationship with the Southern Cross is embedded into a Practice Model for work with men which teaches the Practitioner the important practice of 'Yarning Two Ways'.</p> <p>Practitioners are supported to move away from punitive and collusive approaches as</p>

1.00pm-4.00pm	Workshop 4: Working with fathers Venue: Meeting Place 3	Workshop 2 continued	Workshop 3 continued
	<p>This workshop explores the damaging effects of children experiencing violence and abuse, and how to shift the focus of interventions to the father's responsibility and accountability for safe parenting. Intersecting with this complexity are broader narratives that will often attribute responsibility for safety, security, and emotional wellbeing of children to the victim survivor. This training is underpinned by the current evidence base that has established an understanding of the gender drivers of men's violence against women. With a focus on working with fathers using family violence, practitioners attending this training examine the understanding that the choice to use abuse includes the ways in which abuse and violence minimise and impact on the parenting of the victim survivor.</p> <p><u>Trainers:</u> Kate Bishop, <i>No to Violence</i>, Kim Pedlar, <i>Kids First</i></p>

10.45am Session Keynote	A Few Good Men An in-depth view of the challenges, obstacles and ultimately the blue-sky vision that drives the good men working at the front-line of violence prevention work. The darkest hour precedes the dawn - confronting Inconvenient Truths is the crucial first step towards empowering and supporting men who are at the vanguard of driving change. A forthright, pragmatic conversation about the excuses that some men choose to hide behind and how some men are leaning into	Eroticising Inequality: Why pornography has become a violence prevention issue we can't afford to ignore Readily available and aggressively marketed online, exposure to hardcore pornography is now mainstream. Arguably the most prominent form of sexuality education, pornography is shaping young people's sexual understandings and experiences with serious implications for their capacity to navigate relationships and sexuality that are safe, respectful and consenting. Pornography has	She has to leave. Her life may depend on it. What happens next? The first 24 hours after someone calls a family violence crisis service are dangerous, traumatic, chilling, and empowering. It is the most vulnerable moment for victim-survivors. Reaching out for help, terrified it will work and terrified it won't, they place their lives, their children's future, and a great deal of trust in the hands of our frontline people who know all too well about the limitations of the system and the chronic under-resourcing that frequently hampers an escape.

11.30am Spotlights	<p>Why don't we talk about patriarchy anymore?</p> <p>A 'fireside chat' between Josh Roose and Bob Pease explores the pathway to Bob's long-term involvement in pro feminist politics and critical studies of men and masculinities. From his early anti-sexist activism in the 1970s through to his work in Men Against Sexual Assault (MASA) in the 1990s and Courageous Conversations with Men About Men's Violence Against Women in the present. It explores his PhD on the pathways by which men become pro feminist and the ideas informing some of his key publications including <i>Undoing Privilege</i> (2010, 2022), <i>Facing Patriarchy</i> (2019) and <i>Posthumanism and the Man Question</i> (2023). Some of these ideas challenge the conventional orthodoxy for understanding men's violence against women and engaging men in violence prevention.</p> <p style="text-align: right;">Prof Bob Pease, University of Tasmania, A/Prof Josh Roose, Deakin University</p>	<p>The role of child maltreatment in mental health and health-risk behaviours across life: lessons for prevention, interventions and trauma recovery from the Australian Child Maltreatment Study</p> <p>The Australian Child Maltreatment Study (ACMS) is a landmark data collection that stems from the 2017 Royal Commission into Institutional Responses to Child Sexual Abuse. It is most comprehensive study of prevalence of each of the five types of child maltreatment and multi-type maltreatment, and the associated mental health and health risk behaviours across life. It responds to a major gap in the evidence base required for policymakers and service providers to design and implement better whole-of-population prevention strategies, as well as respond to the trauma and health impacts for those who have already experienced child maltreatment.</p> <p style="text-align: right;">Prof Kate Fitz-Gibbon, Monash University, Prof Daryl Higgins, Australian Catholic University</p>	<p>A day in the life of a Men's Referral Service Counsellor</p> <p>The Men's Referral Service team have been having conversations with men (and sometimes women) for 30 years. Today we give you the opportunity to have a firsthand look/listen into what that can be like.</p> <p>Our roleplay, based on real conversations we have had with men in our counselling centre will provide you with some insight into the work we do every day, to hear the kind of things men say, their attitudes and opinions on relationships and how we, as counsellors try and work with them to help them re-frame what can be dangerous thinking, entitlement etc and assist them to sometimes look at their issues in a different light.</p>

1.30pm Presentations	<p>Prevention of violence against women – how do create social change in a patriarchy?</p> <p>Violence against women in Australia is an epidemic and it is preventable. Responding to violence against women when it happens is critical, but at the same time we need to stop it before it starts. That's what prevention does – it changes the conditions that allow violence against women to thrive in society. These conditions include our individual attitudes and behaviours, social norms, organisational cultures and practices, policies, laws and institutions. In this presentation Serina McDuff looks at the challenges and opportunities of creating social change to prevent violence against women in one of society's most powerful patriarchal system; the justice system. Serina will draw on her at Respect Victoria driving deep systems change, her experience as a human rights lawyer and her work with community and women's legal services.</p> <p style="text-align: right;">Serina McDuff, Respect Victoria</p>	<p>The Wattle Project</p> <p>Understanding Adolescent Violence in the Home: The Integration of Family Violence informed and Trauma informed Frameworks when working with Young People using Violence in the Home</p> <p style="text-align: center;">Alice Lockrey, Kate Richards, Berry Street</p>	To be announced

9.00-12.00pm	Workshop 5 Venue: Meeting Place 1 YSAS/NTV Working with adolescents and young people using intimate partner violence package Research in both Australia and Internationally highlights that use of violence during adolescence can feature in the trajectory towards adult family violence. After 2 years of cross-sector collaboration, in 2022 No to Violence (NTV) and the Youth Support and Advocacy Service (YSAS) established a formal training partnership that merged the specialisation and expertise of both agencies in areas of family violence prevention, men's behaviour change, youth and youth substance use. This partnership has led to the development of unique and innovative training focused on the practice skills necessary for engaging young men who use intimate partner violence. This workshop will explore the process of collaboration, the key learnings that have evolved through the partnership and	Workshop 6 Venue: Meeting Place 2 Presenting Changing the picture We know Aboriginal and Torres Strait Islander women experience disproportionately high rates of violence, and violence that is often more severe and more complex in its impacts. It requires us to address the many complex drivers of violence — not only gender inequality but also the ongoing impacts of colonisation and racism across Australian society. Changing the picture outlines how violence against Aboriginal and Torres Strait Islander women can be prevented, describing the essential actions that are needed to change and shift the drivers of this violence. It considers not only what needs to be done, but how this prevention work should be undertaken, and by whom. Envisaging a shared national effort, it points to actions that are most appropriately undertaken by Aboriginal and Torres Strait Islander people and organisations, and actions that should be	Workshop 7 Venue: Meeting Place 3 Insight into global and local evidence underpinning primary prevention Specific to comprehensive sexuality education.
