

Collaborate Innovate 2023

Industry-Research Collaboration for Australian Prosperity and Sustainability

MONDAY 10 July

12:30pm-3:30pm Hall L	<p>Workshop: <i>Chairs and Boards in Industry-Research Collaboration</i></p> <p>A special session for board members and prospective board members of industry-research collaborative entities.</p> <p>Join with colleagues to discuss governance best practice, cybersecurity, transitions, engaging with Government, AI and disrupted futures.</p> <p>David Thodey AO, Tyro Payments Christian Gergis, Australian Institute of Company Directors Professor Helge Janicke, Cyber Security CRC Dr Ian Martinus, Cyber Security CRC Chair: Belinda Robinson, Cooperative Research Australia</p> <p>This workshop will feature the practical Cyber Security Board Game, presented by the Cyber Security CRC. Corporates Compromised is a highly engaging, facilitated board game run by the Cyber Security Cooperative Research Centre (CSCRC) - that's the first of its kind in Australia.</p> <p>The strategic game provides a team of up to 10 participants the opportunity to learn about cybersecurity concepts, in a safe space.</p> <p>It's facilitated by a trained instructor who coaches and guides the discussion, allowing participants to explore and discuss complex issues within the safety of a fictional story.</p>
