MESSAGE FROM THE CONVENOR

The ANCOLD Tailings Dam Operators Forum will be held 23 – 25 August 2023. The Organising Committee and the ANCOLD Executive welcome everybody to the premier event for tailings operators to be held in Perth.

This forum is a truly unique sponsorship opportunity for organisations with an interest in the tailings dams sector to not only show support of ANCOLD and its initiatives, but to also directly reach a very specific target market.

During the forum you will meet and network with practitioners, regulators and mining industry personnel with a common interest in tailings dam risk.

This national forum aims to bring together the ‘front line’ of tailings dams to openly discuss their experiences with the outcome of improving awareness of tailings management systems and operational safety.

We look forward to meeting you, so please join us in Perth in August 2023.

Ryan Singh

LOCATION

The ANCOLD 2023 Tailings Dam Operators Forum will be held in Perth at the Novotel Langley. The hotel is located in Perth's CBD, overlooking Langley Park and the Swan River, a short walk from Perth railway station, Elizabeth Quay and some of the best attractions, shopping and restaurants in Perth, all easily accessed via their CBD free public transport system.

Perth

The city of Perth sits on the northern banks of the Swan River, while the suburbs of Perth stretch in all directions to the Darling Range in the east and the Indian Ocean in the west.

Given the significant focus and ongoing global commitment to improve the management of tailings, this forum provides operators the chance to network, share and learn from peers.

As a 'non-competitive' part of each mining company's business, the operational aspect of tailings dams is the most critical (and often overlooked) contributor to improving the overall management of tailings from concept design to closure and beyond.
