

Partner & Connect

OAO Scientific Meeting
Niagara-on-the-Lake
May 28-30, 2021

Dear Friends and Members of the OAO,

On behalf of the Ontario Association of Orthodontists Scientific Meeting organizing team, we wanted to say a special “thank you” and show of appreciation and support to our Scientific Meeting Sponsors and Exhibitors. These are unprecedented times indeed. As all of you, we are extremely disappointed of the postponement of this event but know that it was the correct decision.

Our biennial Scientific Meeting event is always the highlight of the year for Orthodontists throughout the province of Ontario. It is a much anticipated, well attended and extremely successful event, chiefly because of the support of our industry partners. Even though we will not be hosting the event this year, we would still like to recognize all our Sponsors and Exhibitors who remain confirmed and committed to being with us in 2021, and acknowledge your commitment to our Association and its Members.

On behalf of all of us at the OAO, this special edition Industry Partner publication is meant as a thank you and tribute to all of you, without whom this meeting would not be possible. Our members will be able to keep this resource handy throughout the year and reference your contribution as they make their purchasing decisions.

We thank you again for your continued and generous support. We look forward to seeing all of you in May 28-30, 2021, and hope that with your help, we can make it the best ever OAO Scientific Meeting yet!

Wishing you all good health,

Dr. Pourang Rahimi
President, OAO

Dr. Richard Marcus
Chair, 2021 OAO Scientific Meeting

OAO is grateful to all our sponsors and exhibitors for your generous commitment and support during this COVID-19 pandemic.
Let's keep the connections going!

SmileSonica Inc. is a Canadian company focused on the research, development, manufacturing, and commercialization of devices, advanced materials, and instrumentation for medical applications. The growing gap between orthodontic patients' expectations and status-quo solutions led SmileSonica Inc. to develop the Aevo System™. The non-invasive, easy to use Aevo System™ achieves patient's desire to reduce treatment time while ensuring long-term oral health. Regular use of the Aevo System™ during orthodontic treatment will facilitate faster tooth movement and decrease orthodontically induced tooth root resorption.
