

Supercharge Your Practice with Supio

On average, legal teams spend up to 1,600 hours per year analyzing complex data and documentation for their personal injury cases.

➤ Medical Chronology & Case Summary

Find Information You Need... Instantly!

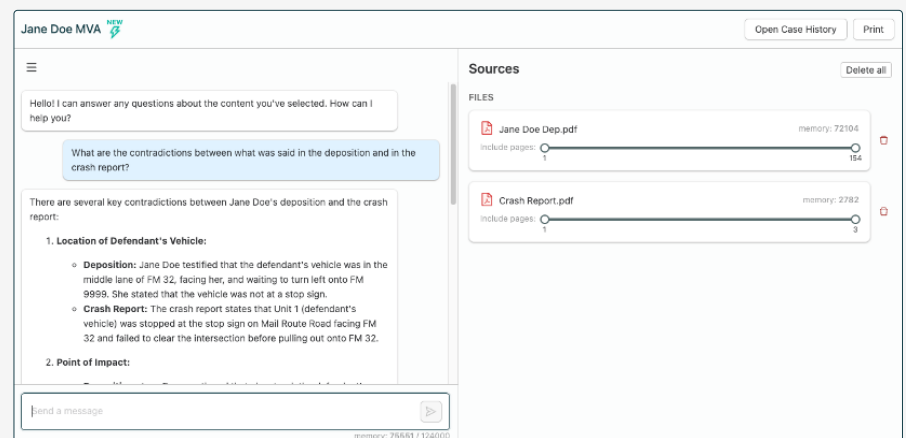

Access to medical chronologies and case summaries from complex medical documents and case records, significantly reducing review time from days to hours.

- **Pre-Litigation:** Understand injuries, identify areas for further treatment, sort and filter by event type, provider and dates.
- **Litigation:** Have medical records at fingertips in court where you can discredit opposing counsel or define questioning for a witness.

Subhead?

- **Find gaps in evidence:** Presented from both sides with deep-dive analysis.
- **Find contradictions:** Compare statements and find contradictions in case records, like a police report and a witness statement.
- **Be better prepared:** Legal teams can be better prepared for depositions, mediations, and trials.

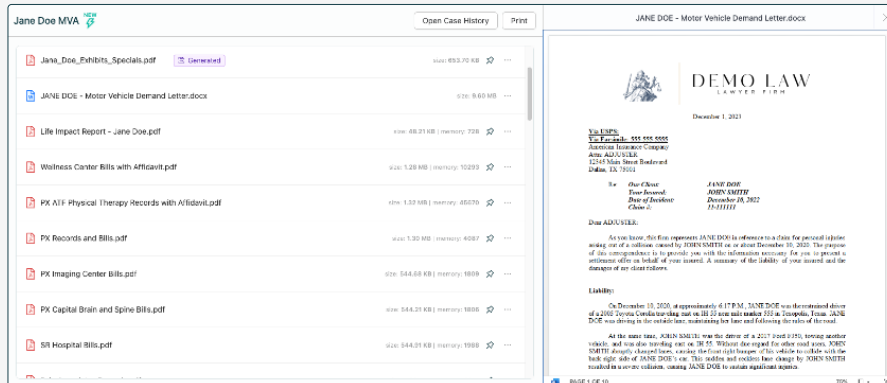

➤ Next-Level Analysis

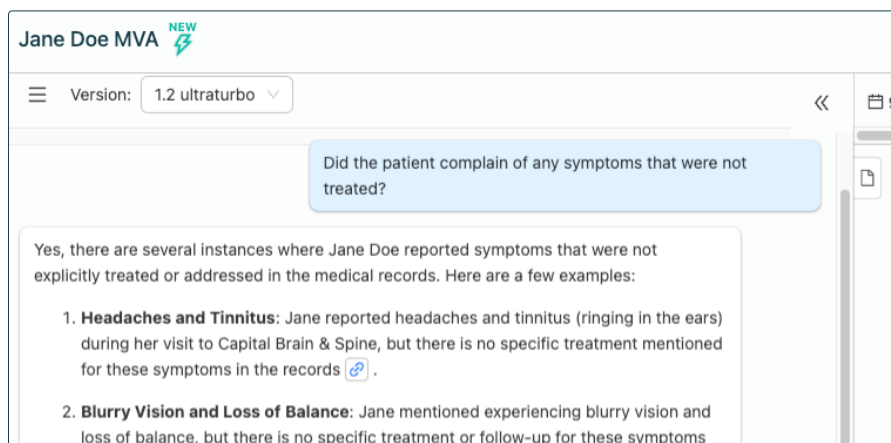

Spend More on Case Strategy, Not Document Review

- **Supio delivers outputs** like demand letters for MVAs or Fact Sheets for mass torts.
- **Create instantaneous narratives or summaries:** The AI Assistant assists in drafting depositions, complaints, and pleadings with detailed summaries and critical case insights.

Legal Outputs, Drafting & Deposition Summaries

Have the upper hand in your case

Subhead?

- **Real-time access** to records and summaries
- **Address questions** from insurance adjuster within seconds
- **Counter opposing arguments** in court or mediation
- **Negotiate better** and achieve higher settlement amounts

Find Information You Need... Instantly!

- **Facilitates better preparation** for depositions, mediations, and trials by providing detailed case information and outlines.
- **Access to an AI assistant** to understand medical terminology, prognosis's of treatments, or future needs of care.
- **Easy integration** with case management systems like Litify and FileVine for seamless data transfer and organization.

Document Review & Case Management
