

Deque University

The most comprehensive
accessibility training
program in the world

Learn Accessibility Skills at Your Own Pace

Deque University provides an extensive curriculum of self-guided online courses so you can focus on the skills you need with the flexibility your schedule requires. Our self-paced online courses cover the fundamentals of web accessibility and extend to native mobile accessibility, Word Document accessibility, PDF accessibility, special role-based accessibility topics, and prep-courses for IAAP accessibility certification.

Deque University Includes

- 60,000 subscribers
- 37+ Courses
- 64 Hours of Training

Role-Based Training

- Front-End Developers
- UI/UX Designers
- QA Testers
- Content Creators
- Customer Service
- Leadership

“The experience of taking Deque courses has been absolutely PHENOMENAL. I really like the way that the courses are laid out and the fact that a scholarship grants access to all accessibility courses offered by Deque for a limited amount of time.”

– Zimnaan Mohammed, Student

- Accessibility Program Management

Deque Product Training

- axe DevTools
- axe Auditor
- axe Monitor

Online, Self-Paced Training Courses

Deque University offers 37+ individual, self-paced courses that can be purchased as an annual subscription. Our courses follow training paths designed to support your team members' goals.

IAAP Certification Preparation

Deque is one of the International Association of Accessibility Professionals' (IAAP) Approved Certification Preparation Providers. Deque University offers courses to help you prepare for the Certified Professional in Accessibility Core Competencies (CPACC), Web Accessibility Specialist (WAS), and Accessible Document Specialist (ADS) exams.

The IAAP Certification Professional in Accessibility Core Competencies (CPACC) exam preparation course prepares you for certification success. In this five-hour, non-technical course, you will learn about disabilities, accessibility and universal design, accessibility standards and laws, and management strategies.

The Web Accessibility Specialist (WAS) prep course will prepare developers, designers, and other professionals with the ability to assess web properties against accessibility standards and provide remediation feedback. This is an intermediate, technical-level certification for those who are familiar with HTML, JavaScript, ARIA, etc.

The Accessible Document Specialist (ADS) preparation course covers how to create accessible documents in multiple sources and formats, remediate (fix) inaccessible files in PDF, Microsoft, and EPUB formats, together with other important aspects of document accessibility.

Deque University Scholarship for People with Disabilities

If you have a disability, you're eligible for free access to our Deque University online course curriculum. Learn more and apply at www.dequeuniversity.com/scholarships

Achieve High Velocity Accessibility

Accessibility is a requirement—legally, financially, socially, and ethically. We make it smoother, easier, faster, and more sustainable from end-to-end. Deque University provides the de facto standard in on-demand accessibility training. Thousands of development organizations—including Microsoft, *The Economist*, Harland Clarke, Carfax, Crate & Barrel—trust Deque to build a firm foundation for accessibility for all. Join them.

“The coursework was a glorious experience. I learned a great deal from the courses—they are really well-written.”

— Nolan Crabb, Director of Assistive Technology, Ohio State University
