

Professor Yin obtained his bachelor's degree at Peking University, PhD from Yale University in 2004 under the supervision of Professor Andrew Hamilton and post-doctoral at the University of Pennsylvania School of Medicine with Professor William DeGrado. In 2018, Professor Yin joined the School of Pharmaceutical Sciences at Tsinghua University as a founding Deputy Dean. Prior to joining Tsinghua, he was a tenured faculty member of the University of Colorado Boulder. His research interests lie at the interface of chemistry, biology, and engineering with particular focuses on structure-based drug design, extracellular vesicles, cell signaling biochemistry, biotechnology development, and membrane protein simulations. Professor Yin is a recipient of many accolades for his research in chemical biology and drug discovery, including the Wu Jieping-Paul Janssen Medical & Pharmaceutical Award, American Chemical Society David W. Robertson Award for Excellence in Medicinal Chemistry, O'Keefe-CAPA Senior Investigator Award, National Science Fund for Distinguished Young Scholars, Beijing Outstanding Young Scientist, CAPA Distinguished Junior Faculty Award, NSF CAREER Award, AACR Gertrude B. Elion Cancer Research Award, Sidney Kimmel Scholars Award, and HHMI Collaborative Innovation Award among others. Professor Yin is currently serving as a member of the Academic Committee of Tsinghua University, a Vice President of the Chinese Society of Extracellular Vesicles (CSEV), the Editor-in-Chief of *Bioorganic and Medicinal Chemistry Letters*, and a deputy editor of the *Journal of Extracellular Vesicles*.
