

Conference Description

The 38th Annual Conference on Contemporary Issues in Obstetrics and Gynecology will provide evidence-based updates on a wide range of topics in obstetrics and gynecology, while highlighting our commitment to improving the health of our patients and the dissemination of medical knowledge to healthcare professionals. Conference faculty consists of UTHSC faculty and guest speakers. Topics will be presented to address the individual knowledge gaps and will include skills and methodologies within the practice environment. A panel discussion at the end of each session will allow interaction between faculty and participants.

Educational Objectives

- Describe new therapeutic options for patients with gynecologic disorders
- Recognize innovations in obstetric and gynecologic patient care
- Explain current controversies in obstetrics and gynecology
- Review strategies for prevention of preterm birth

Desired Outcome

This conference is designed to provide interactive educational activities that discuss complicated case scenarios that have been shown to improve participant application of evidence-based medicine for obstetric and gynecologic patients. Providing a format for adult learning that includes lectures, case-based studies, interactive question and answer sessions, collaborative sharing of patient care issues, and networking with other healthcare professionals has been shown to improve participant knowledge and competency.

Target Audience

Obstetrics and Gynecology Physicians, Family Medicine Physicians, Primary Care Physicians, Certified Nurse-Midwives (CNMs) and Certified Midwives (CMs), Advanced Nurse Practitioners (ANPs), Physician Assistants (PAs), Residents and Fellows, and other Professionals in Women's Health Field
