

# Planning for the Future: Transatlantic Cooperation in SMRs Workshop

DECEMBER 7-8, 2022 | BRUSSELS, BELGIUM

## **Štěpán Kochánek**

*Head of the Legal Department*

*State Office for Nuclear Safety, Czech Republic*

Stepan Kochanek works as a lawyer of the State Office for Nuclear Safety, the Czech regulatory body for a peaceful utilization of nuclear energy and ionizing radiation, since 2003. As a head of the Legal Department, he is responsible for managing all legal affairs related to all aspects of nuclear safety and security, radiation safety, emergency management, transport of nuclear and radioactive materials and radioactive waste management. His working experience covers legislation-making (including participation on the EU legislation preparation and implementation of international and EU legal requirements), legal support for policy making, legal support for decision making and inspections and State representation in courts.

Stepan Kochanek participates as an expert on EU development projects in neighboring countries (Armenia, Jordan, Ukraine) and as a lecturer and external expert for the IAEA's Technical Cooperation Programme. He is the Czech Republic's representative in the IAEA NHI Working Group 3, in the EU Pre-partnership Working Stream 2 and represents the regulatory body in national SMRs' intragovernmental initiatives.

Since 2021 he acts as a deputy for the Vice-Chair of the State Office For Nuclear Safety.

Mr. Kochanek holds Master's Degree in Law and Legal Theory.
