

**Dr. Cara LaPointe**

Co-Director of the Johns Hopkins Institute for Assured Autonomy  
Johns Hopkins Applied Physics Laboratory

Dr. Cara LaPointe is a futurist who focuses on the intersection of technology, policy, ethics and leadership. As Co-Director of the Johns Hopkins Institute for Assured Autonomy, author of the “Blockchain Ethical Design Framework”, and Director of the French-American Foundation Cybersecurity Program, she works to ensure that emerging technologies are safe, ethical and trustworthy. In the US Navy, she held roles in autonomy and AI, unmanned systems, acquisitions, ship design and production, naval force architecture, power and energy, and digital transformation. Cara is a patented engineer and has served as an advisor to global emerging technology initiatives at the National Academy of Medicine, the United Nations, and the Organization for Economic Cooperation and Development. She served in the White House for three Presidents, most recently as a Senior Advisor in the Biden-Harris administration. She holds degrees from the Massachusetts Institute of Technology, Woods Hole Oceanographic Institution, University of Oxford, and United States Naval Academy.
