## Sexual Assault Nurse Examiner (SANE) Seminar for the Adult, Adolescent & Pediatric Populations (Combined Course)

## **Self-Paced Webinars**

All webinars are a prerequisite to attending the in-person session. Attendees must be prepared to take a quiz on the following content after completion and before the in-person session.

Webinar 1:	Title:	Overview of Forensic Nursing
	Instructor:	Susan Kanack, BSN, RN, SANE-A, SANE-P Forensic Nursing Coordinator,
		Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topic, the participant will have the
		knowledge required by the adult/adolescent/pediatric SANE to incorporate
		fundamental forensic principles and practices into the nursing process when
		providing care for adult, adolescent and pediatric patients following a sexual assault.
	Time:	120 minutes
Webinar 2:	Title:	Overview of Sexual Violence
	Instructor:	Susan Kanack, BSN, RN, SANE-A, SANE-P Forensic Nursing Coordinator, Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topic, the participant will have the
		knowledge required to recognize the dynamics of sexual violence, which provide
		context for the care of adult and adolescent patients following a sexual assault. The
		adult/adolescent SANE uses this knowledge to educate patients about the
		connection between violence and health, and to collaborate with patients in
	T:	identifying appropriate interventions and community referrals.
Wahinan 2	Time:	120 minutes
Webinar 3:	Title:	Overview of Child Maltreatment
	Instructor:	Lynn Cook, Program & Policy Analyst – Children's Justice Act Program Analyst, Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topics, the participant will have
		knowledge required to recognize the dynamics of sexual violence, which provide the
		context for the care of pediatric patients following sexual abuse/assault. The
		pediatric SANE uses this knowledge to educate patients and families about the
		connection between child and sexual abuse/assault and health, and to collaborate
		with patients and families in identifying appropriate interventions and community referrals.
	Time:	120 minutes
Webinar 4:	Title:	Special Populations: Healthcare & The Forensic Exam for the Transgender and
Webillal 4.	Title.	LGTQB Community
	Instructor:	Jessica Johnston-Rickert, MD, Internal Medicine, Primary Care of Appleton
	35,550.75.	, , , , , , , , , , , , , , , , , , , ,

		correct terminology and definitions. Best practices for improving forensic nursing
		care provided to underserved or vulnerable patient populations. Factors that impact
		the vulnerability of patients being targeted for sexual assault and abuse.
	Time:	60 minutes
Webinar 5:	Title:	Special Populations: Indigenous Women
	Instructor:	Brooke Johnson, Missing, Murdered & Indigenous Women Coordinator, Wisconsin
		Department of Justice
	Objective:	Upon completing this webinar, the participant will understand the unique healthcare
		challenges to underserved sexual assault and abuse populations and associated
Webinar 5:	Title: Instructor:	care provided to underserved or vulnerable patient populations. Factors that impact the vulnerability of patients being targeted for sexual assault and abuse.  60 minutes  Special Populations: Indigenous Women  Brooke Johnson, Missing, Murdered & Indigenous Women Coordinator, Wisconsin Department of Justice  Upon completing this webinar, the participant will understand the unique healthcare

women. Best practices for improving forensic nursing care provided to population.  Time: 60 minutes  Webinar 6: Title: Special Populations: Patients with Disabilities  Instructor: Pam Malin, Advocate, Disability Rights Wisconsin  Objective: Upon completing this webinar, the participant will understand the unique healt challenges to underserved sexual assault and abuse populations and assor prevalence rates of the people with disabilities. Best practices for improving for nursing care provided to this population.  Time: 122 minutes  Webinar 7: Title: Special Populations: Human Trafficking Primer for the SANE  Instructor: Dr. Debbie Lassiter, CEO, Convergence Resource Center, Milwaukee Jamie Counsel, BSN, RN, Forensic Nurse Coordinator, Mercy Health and Traum Center  Objective: Upon completing this webinar, the participant will learn factors that impact vulnerability of patients being targeted for sexual abuse and human trafficking. 60 minutes  Webinar 8: Title: Forensic Interviewers and their Role in the MDT  Instructor: Lynn Cook, Program & Policy Analyst – Children's Justice Act Program Analyst, Wisconsin Department of Justice  Objective: Upon completing this webinar, the participant will understand what for interviewing is, their role in the multidisciplinary team as it relates to sexual and how SANEs can expect to partner with this discipline in their practice.  Time: 60 minutes  Webinar 9: Title: Handing Strangulation Cases on the Front Lines (Strangulation 101)  Instructor: Dr. Jacquelyn Campbell, Dr. Ralph Riviello, Gael Strack, JD, Institute on Strangulation Prevention  Objective: This webinar, hosted by the Training Institute on Strangulation Prevention, fea	care ated ensic

	the
Dove Program, the Tulsa Family Safety Center, and One Safe Place. The we	
covers the most current information and research on the Danger Assessment	
the medical consequences of a strangulation assault and describes best practic	
a front-line staff member to provide services to a strangled victim. Suzann Ste	-
Michelle Morgan, and Audrey Bergin discuss how they have integrated	
practical approaches into their organizations and how front-line staff	
communicate the medical aspects of strangulation with victims using a tr	
informed approach. Finally, the webinar teases part II, which will focus on	
research in the field of Traumatic Brain Injury, the Science of Hope	and
recommendations for front line professionals.	
Time: 116 minutes  Webiner 10: Title: Neurobiology of Trauma and Cricis Intervention	
Webinar 10: Title: Neurobiology of Trauma and Crisis Intervention	
Instructor: Emma Reader, MSW, LCSW, Trauma Counselor, Advocate Aurora Healing & Advocacy Center	
Objective: Upon completing instruction in the following topics, the participant will hav	
knowledge required to understand the psychosocial impact of sexual abuse/as	the
on pediatric, adolescent, and adult patient populations. These topics underpi	
foundational knowledge of the SANE to appropriately assess, plan, implement	sault

		evaluate care as well as to collaborate with patients in identifying appropriate care
		goals and community care referrals.
	Time:	120 minutes
Webinar 11:	Title:	Minimal Facts Interviewing with Pediatrics
	Instructor:	Lynn Cook, Program & Policy Analyst – Children's Justice Act Program Analyst,
		Wisconsin Department of Justice
	Objective:	Upon completing instruction in the following topics, the participant will learn key
		components of obtaining a comprehensive, developmentally appropriate patient
		history of the pediatric patient, the difference between a forensic interview and a
		medical forensic history, techniques for establishing rapport and leading vs non-
	<u> </u>	leading questions.
	Time:	120 minutes
Webinar 12:	Title:	Sexually Transmitted Infections & Treatment; Pregnancy Assessment and Risk
	Instructor:	
		Advancement, Women's Health Nurse Practitioner, Health Care Education and
	Objective:	Training  Upon completing instruction in the following topics, the participant will have the
	Objective.	knowledge required to use the nursing process when caring for and communicating
		with patients who are at risk for an actual or potential sexually transmitted disease
		following sexual abuse/assault. Sexually transmitted diseases may include
		gonorrhea, chlamydia, trichomoniasis, human immunodeficiency virus (HIV),
		syphilis, herpes, human papillomavirus, and hepatitis B and C. Have the knowledge
		required to accurately assess the risk of pregnancy following sexual abuse/assault
		and to provide the pediatric and adolescent patient with options for care, including
		information for receiving emergency contraception.
