

# 13th ICPMF

International Conference on  
Predictive Modelling in Food

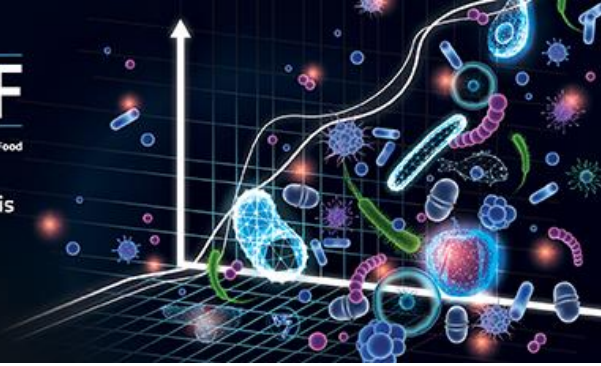

1-3  
Sept.  
2025

Technopolis  
City of  
Athens

AFEA

## Chrysoula Tassou

Dr. Chrysoula Tassou is Research Director in Food Microbiology/Safety in the Institute of Technology of Agricultural Products (ITAP) of the Hellenic Agricultural Organization - DIMITRA, Deputy Director of ITAP, President (2018-22), and member of ITAP's Scientific Council. She has served as President of the Hellenic Scientific Society Mikrobiokosmos (2019-2023) and currently she is the General Secretary. Her research interests include food microbiology and safety, microbial diversity in foods, fermented functional foods with probiotics, food biopreservation, and novel tools and methods in food microbiology. She has implemented successfully as Coordinator or as Scientific Leader, more than 50 competitive EU and national research projects, attracting significant funding for ITAP. She is editor and peer-reviewer in international scientific journals and expert evaluator/reviewer for national and European research projects. She is member of the working groups of "Food Safety", "Food Processing and Packaging" and "Nutrition, Health, Consumers" of the Greek Technological Platform "Food for Life", member of the European platform. She has continuous collaboration with Universities in Greece and abroad teaching in undergraduate and postgraduate level and being Supervisor or Committee member for PhD and MSc students.
