1 WELCOME WORD

The 13th European Space Power Conference will be held from 2nd until 6th of October 2023 in Elche (Spain). It is organised by the European Space Agency (ESA) with the local support of the Industrial Electronic Group of Miguel Hernández University of Elche (UMH) and the local tourism organisation: VISITELCHE.

The conference is a unique international forum covering all aspects of electrical power for space applications, from power system architecture to generation and storage, power conversion and management.

The Conference Topics are:

Power Generation

- Solar cells, module and generator technology
- Solar generator electrical, mechanical and thermal design
- Solar cells and generators testing and calibration

Energy Storage

- Primary & secondary batteries
- Fuel cells & electrolysers
- Supercapacitors & Li ion capacitors
- Other energy storage methods

Power Management and distribution

- Power subsystem architecture
- Power conditioning, distribution and conversion
- Components and IC technologies for power applications
- Digital control in power management
- High voltage power processing

Nuclear Power

- Nuclear and other power generation methods

The ESPC is highly appreciated in the international industrial and research & development space power community. Its success are the presentations (around 150 papers), tutorials plus workshops and the set-up of the industrial exhibition area. This area allows companies to be seen and to advertise themselves. If you are interested to participate and to present your products and/or services in this technical forum, the Centro De Congresos De Elche offers a non-exclusive choice of exhibition stands and services to do so. This facilitates the needs to network with other players in the market providing the opportunity to exchange and discuss with engineers and scientist of the space power community.

Any contributions from the above domains are welcome, showing:

- early results of future technologies
- original implementation of new (or old) functions
- the use of new components or assembly techniques
- future concepts that could become the state of the art and so on

We are looking forward to receiving your valuable contribution and to welcoming you in Spain next October!

ESPC2023 Organizing Committee

2 CONFERENCE LOCATION

The ESPC 2023 will take place in Elche, Spain, at the Centro De Congressos De Elche.

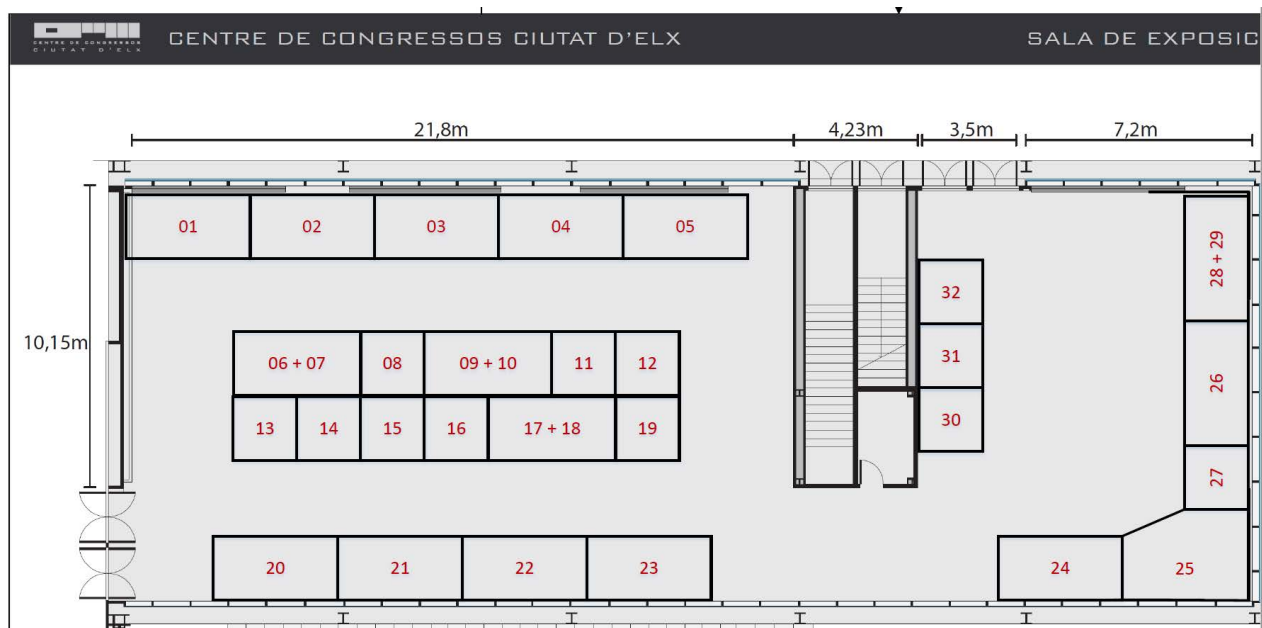

3 EXHIBITION

Companies are invited to display their products during the conference. A dedicated exhibition area is planned in the conference centre. Coffee breaks will take place there for maximum visibility to the participants of the ESPC. We provide exhibition stands in 4 or 8 square meters. However, it might be possible to arrange different sizes depending on the availability.

5 MEETING ROOMS

We offer small meeting rooms free of charge to accommodate up to 6 people for more private discussions. These can be booked at the registration desk during the conference opening hours.

6 EXHIBITION OPENING HOURS

The exhibition area will be accessible from Monday 2nd October at 10:40 until Friday 6th October at 11:00 for the public. The official opening will take place on Monday evening during the Exhibition Cocktail.

The exhibition remains open during the conference. The exhibitors are asked to be present at their stand to meet the conference participants as a minimum during the poster session and coffee breaks.

7 SET UP AND DISMANTLING HOURS

The set-up times are on Sunday 1st October from 10:00 until 17:00 and on Monday 2nd October from 7:00 until 10:40. A sign with your company name will indicate your display area.

The exhibitors can start dismantling on Friday 6th October after 11:00.

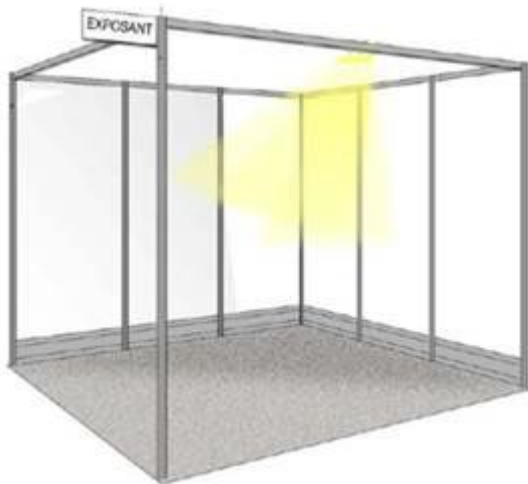

8 EXHIBITION APPLICATION

Exhibitor Stand Prices

Stand A: 4 m² (2 m x 2 m) included 1 complimentary registration: € 2200

Stand B: 8 m² (4 m x 2 m) included 1 complimentary registration: € 2500

Stand C: 8 m² (4 m x 2 m) included 2 complimentary registrations: € 3300

Exhibitors can register for a stand via the following [LINK](#) to secure their stand space. Upon receipt of the application, instructions on how to register the exhibition personnel can be found in the exhibition booking portal.

The Stand Packages include:

- A 4 or 8 sqm stand in the exhibition area, including:
 - Carpet
 - Electricity
 - Lighting
 - 1 table
 - 2 chairs
- Access to the exhibition area and the conference presentations/tutorials/workshops for 1 or 2 people (depending on the stand package). Additional people shall register to the conference as normal participants.
- One conference package per person
- All conference coffee breaks, lunches and social events (Welcome Cocktail on Monday 2nd October at the conference centre, and the Gala Cocktail and Dinner on Thursday 5th October at an external location).

Additional Gala Cocktail/Dinner tickets can be purchased for €80 per person. Please send your request to the ESA Conference Bureau (esaconferencebureau@atpi.com)

Conference fees (for extra participants):

- Early registration (payment received before 21 July 2023): €825.00 per person.
- Late registration (after 21 July 2023): €950.00 per person.

The deadline for exhibition applications is 1st September 2023.

There are two payment methods: bank wire transfer and credit card. The payment shall be settled within 15 days after invoicing. Exhibition bookings will be confirmed once the full payment has been received.

9 SHIPPING MATERIALS

Exhibitors are responsible for their own shipping arrangements and costs. The conference centre can store exhibition material one week before the conference. Further details regarding the shipment procedure will be communicated closer to the commencement of the conference.
