# Two lines of action in the ESA Agenda 2025

Increase the contribution of space projects to the sustainable development of society

"(...) ensure that ESA and European space programmes can support the implementation of the Paris Agreement and the European Green Deal to the fullest extent."

1

Improve the socially & environmentally responsible management of space sector activities

"The Agency will improve its own environmental responsibility, to contribute to the climate neutrality of Europe. By 2030, ESA's greenhouse gas emissions will be decreased by 46.2% compared to 2019."
