

**YOUR RESEARCH - MADE EASIER**

**ifonetica**

Powering the Research of Tomorrow

## Your research - made easier

Our eco-system of user-friendly software products allows you to customise your workflow to streamline set up, monitoring, tracking and automation – for the entire life cycle of research.

# Infonetica - A differentiated offering

## Connected Ecosystem

Connected ecosystem for our customers through product integrations with other software vendors

## Inter-operability

Inter-operability between Infonetica's product suite

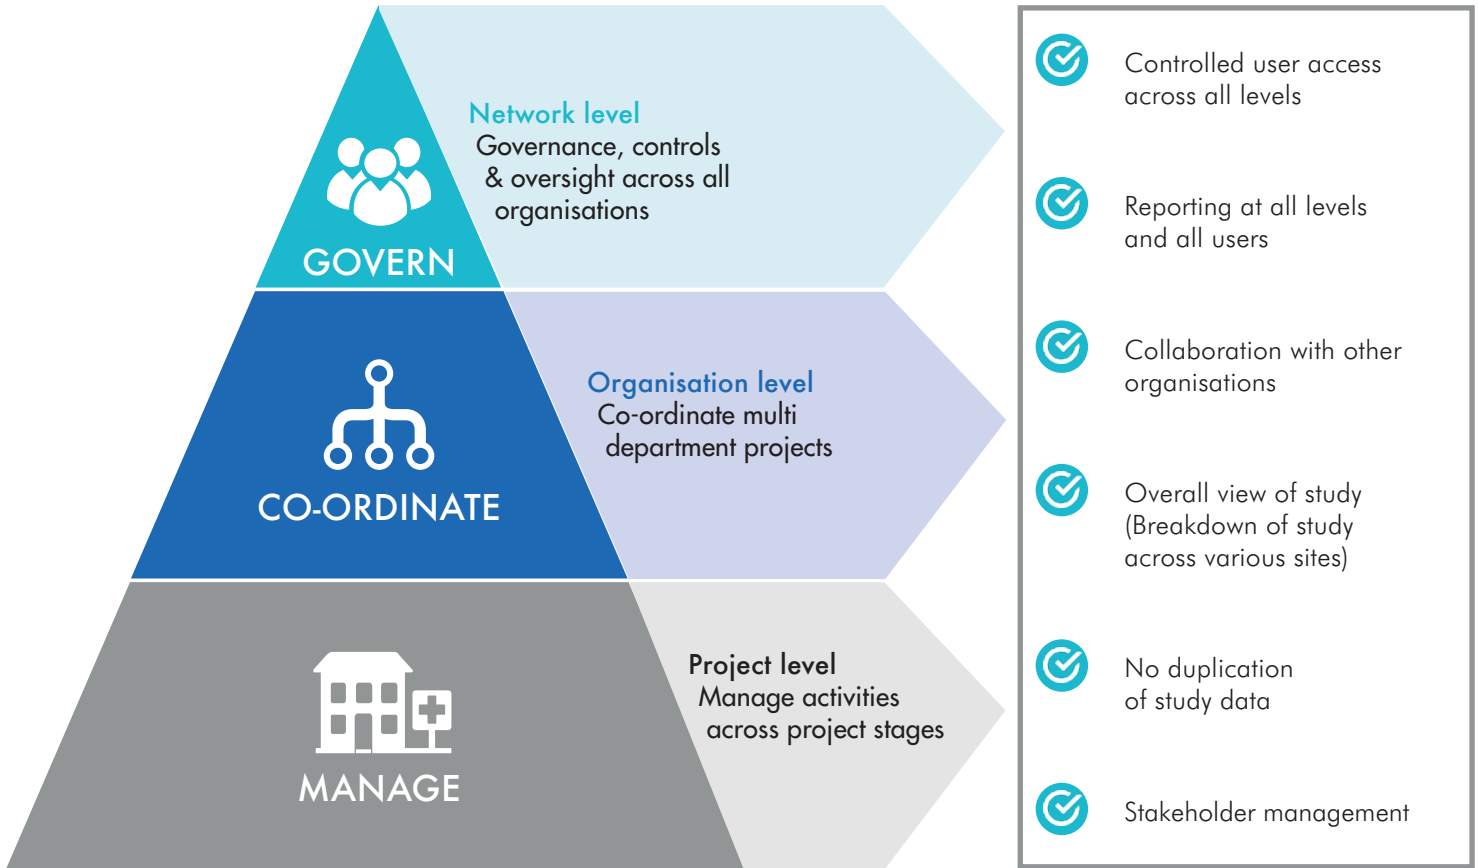

## Versatility

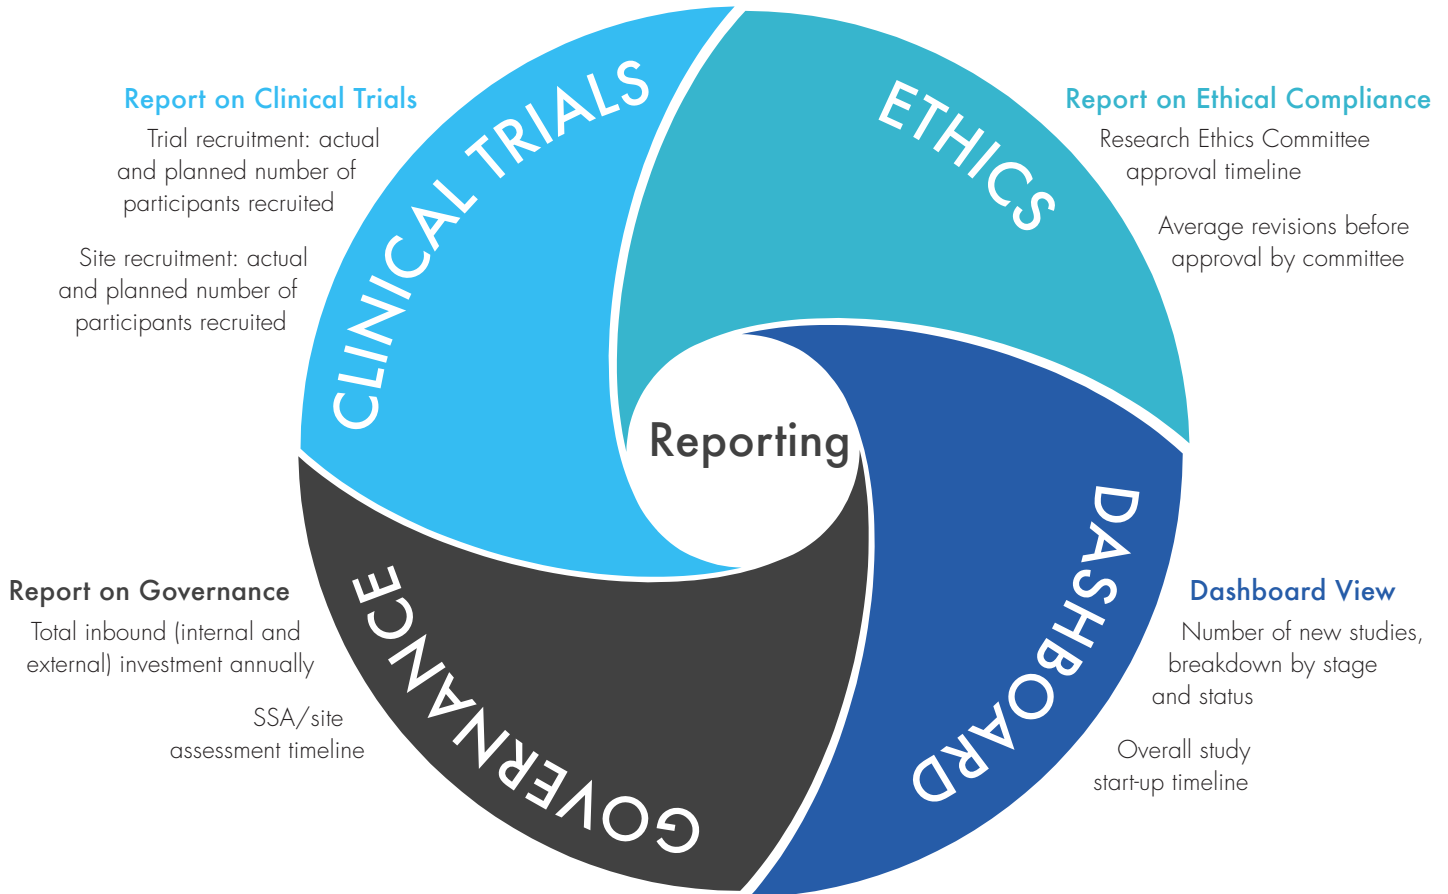

Broad usage across single site research universities & hospitals to multi-site, multi-tenanted national & regional organisations

Ethics RM is a cloud-based Research Ethics and Governance software used by leading UK universities such as Kings College, University of Manchester, University of Bath, University of Liverpool and Cranfield University.

# Designed to support multi-level hierarchy

# Power in the hands of users through data
