

Mr Ben Kennedy

Australia

Ben Kennedy is currently the MRI Clinical and Research Director at Mermaid Beach Radiology.

He has a master's degree in MRI from the University of Queensland and is currently an Adjunct Research Fellow at the Menzies School of Health Research.

His specialities are sequence development and translation of research applications into clinical mainstream imaging.

Ben has been an invited speaker at ISMRM, SMRT and ESMRB covering such topics as pulse sequence optimization, MRI physics and specialized clinical applications. Ben is a Past President of the ISMRT and currently holds the role of ISMRT Safety Chair.
