

Prof. Madja Thurnher

Medical University of Vienna

Prof. Madja Thurnher is holding a position of Associate Professor of Radiology at the Medical University of Vienna since 2001. Her primary focus is on neuroradiology, especially CNS infections, demyelinating diseases and spinal imaging.

Her published work includes 80 scientific articles, and 47 book chapters. She has contributed as a reviewer and editorial board member to numerous national and international journals, including guest editorship of special issues of European Radiology and Neuroimaging Clinics of North America. She was Editorial Board member of European Radiology, American Journal of Neuroradiology AJNR, and is currently Editorial Board Member of Neuroradiology.

She has delivered more than 400 invited lectures at national and international meetings, and has been a regular member of the program planning committees for the European Congress of Radiology (ECR), European Society of Neuroradiology (ESNR) annual meeting and a Co-Director of the European Course in Neuroradiology (ECNR).

At the ECR 2011 Prof. Thurnher gave a prestigious "Pierre and Marie Curie Honorary Lecture". She has been invited as a Guest Professor at numerous European and American Universities, and became the very first "The Johns Hopkins Milosh Petrovich Travel Grant" in 2008.

She was awarded with the European School of Radiology "ESOR Teaching award" in 2013 and 2017. Prof. Thurnher is the Honorary Member of several neuroradiological societies.

Prof. Thurnher has served as a President of the European Society of Neuroradiology-Diagnostic and Interventional (ESNR) from 2014-2016, and is currently a CEO of the European Board of Neuroradiology (EBNR).
