

Dr Mark Viner

United Kingdom

Mark Viner

Dr Mark Viner has over forty years' experience as radiographer, radiology manager and senior manager in major London hospitals.

He is currently Senior Tutor in radiography at Queen Mary University of London and Senior Lecturer in Forensic Radiography at Cranfield University, as well as working part-time as a radiographer at Lymington Hospital in Hampshire

He is internationally recognised for his work in forensic radiography and has published many scientific papers, textbooks and textbook chapters. He gained his PhD by Published Work in 2020 in the development of standards and standard operating procedures in forensic radiography.

He holds the Diploma of Forensic Medical Sciences and the Diploma of Forensic Human Identification and is a registered forensic practitioner, a member of the Chartered Forensic Science Society, the American Academy of Forensic Sciences and the British Association for Forensic Odontology.

He was awarded a Winston Churchill Travelling Fellowship and the Fellowship of the College of Radiographers in 2005 and the Gold Medal of the Society and College of Radiographers in 2010.
