

Ms Thao Tran

United States

Thao Tran is an MR Technologist with 20 years of experience in cardiac MRI and MR spectroscopy in a hybrid clinical and research setting.

Ms Tran studied biology at UCLA and received her Master of Science in Applied Sciences of Magnetic Resonance from Anglia Ruskin University in 2017.

While at Huntington Medical Research Institutes, under the guidance and supervision of Dr Brian Ross, Thao was involved in research studies implementing MRS in neurodegenerative diseases such as Alzheimer's Disease, Parkinson's Disease, HIV, traumatic brain injury and hepatic encephalopathy, resulting in over 20 publications.

Thao is also an MRS instructor who has coordinated over 15 MRS Courses in collaboration with GE MR Scientists and has trained more than 100 spectroscopists worldwide.

Thao is a Senior Imaging Manager in the Clinical Data Management department at Exelixis, a Biotechnology company in the Northern California area, and an MRS consultant for Voxel Systems based in Houston, Texas.
